ambridge Scientific Abstracts

An annual subscription to Microbiology Abstracts, Section A includes twelve monthly issues, each containing an Author, a Patentee and Assignee, and a Subject Index, and a separate Annual Author, Patentee and Assignee, and Subject Index sent without further charge to subscribers after completion of the volume. Subscriptions are entered on a calendar year basis only.

Annual subscription rates 1982

Americas Rest of the world (air)		\$375 £162
Rest of the world (surface)	-	£150

Two-year subscription rates

Save 5% on a two-year subscription to the 1982 and 1983 volumes. To calculate the two-year rate, simply double the 1982 price above and deduct 5%.

Orders

Orders from or on behalf of subscribers in the various geographical areas shown below should be routed to the appropriate office or sole agent with payments made in the currencies marked:

Western hemisphere

(North, Central and South America — payment in US dollars)
Information Retrieval Inc.,

Microbiology Abstracts: Section A

Industrial & Applied Microbiology

Annual Indexes to Volume 17 1982

Editorial staff

Barbara B. Engel Ray Fisher Lawrence L. Pilon J. Nicholas Ruth III Darrell D. Stover

Foreword

Microbiology Abstracts, Section A commenced publication in 1965 and is published monthly. Each issue contains approximately 900 abstracts followed by author, patentee and assignee, and subject indexes.

Coverage

In compiling each month's issue, CSA's editorial staff monitors approximately 5,000 primary journals as well as patents and other source references for papers falling within the scope of Microbiology Abstracts, Section A.

Subject scope and arrangement of subject matter

The table of contents shows the full scope of the journal.

Abstracts are allocated to the section (subsection) to which they are most relevant and cross-referred to other sections (subsections) where appropriate.

Using this journal

Full details of the bibliographic data cited for each abstract and of abbreviations used can be found in the first issue of this volume.

Subject Index

Absorption

Abate, effects on, growth, Vibrio natriegens 5379. Abattoirs, by-products, Salmonella, Escherichia coli, Bacillus, enumeration, physicochemical properties 158. cattle, liver, Salmonella contamination 3504 cattle, Salmonella, meat contamination 2673.
chickens, washing methodology, carcasses, effects on Enterobacteriaceae 1007. chickens, washing methodology, carcasses, effects on Enterobacteriaceae 100 Escherichia coli, isolation, abeep 478 livestock, Salmonella, incidence, Ethiopia 2666.

Bivestock, Salmonella, incidence, Ethiopia 2666.

Sitaphylococcus aureus, association, carcasses bone 1794.

man, pigs. Salmonella, infection, diagnosis, disease transmission 2665.

meat, Campylobacter infection 5939.

meat carcasses, cleaning methodology 1008.

meat, Salmonella, disease transmission, knives 5935.

meat, temperature, sampling sites, effects on contamination, coliforms, Enterobacteriaceae, Streptococcus faecalis 5061.

pigs, association, enteritis, Campylobacter jejuni, contamination, man 4346.
pigs carcasses, incidence, bacteria abscesses 136. Acari. pigs, sheep, cattle, Escherichia coli, isolation 2663.
samples, isolation, Brucella abortus, emulsification, centrifugation 796.
Abelmoschus esculentis, roots extracts, effects on, growth, rhizosphere microorganisms 5336.

Abelmoschus esculentus, inheritance disease resistance okra yellow vein mosaic virus, Abelmoschus manihot inheritance disease resistance okra yellow vein mosaic virus, Abelmoschus manihot powdery mildew concurrent infection, Leveillula taurica, Oodium 3704. belmoschus manihot, inheritance disease resistance okra yellow vein mosaic virus, Abelmoschus esculentus 9556 Herpotrichia juniperi 390. isolates, Lachnellula characterization 1141. Abies alba, olies alba, dieback, association bacteria opportunistic infection, wetwood 8708. dieback, association bacteria, wetwood, wood physical properties 8709. dieback, association beterobasidion annosum infection 8706. dieback, population dynamics, conferences, Europe 9143. dieback, yodwai polyspora 397. dieback, wetwood, bacteria, roots infection, acid rain effects on soil nutrients 9717. 8711 dieback, wood, decay susceptibility, Stereum chailletii, Ceratocystis piceae 8710 litter, chitin biodegradation, bacteria, yeasts 2645 litter, Mucorales metabolism, polyols, sugars 377 mycorrhizas 379. seedlings, infection, Cylindrocarpon destructans, soil microorganisms, effects on 2912 wetwood, bacteria, minerals levels 8712 wetwood, bacteria, water conductivity 8707. forests, nutrient cycles, primary production, mycorrhizas role, USA, Washington 6044. Abies amabilis, Abies balsames forests, pest control, biological control, Choristoneura fumiferana, Bacillus thuringiensis 8428.

Phytophthora cinnamomi root rot, USA, North Carolina 7047. Abies concolor, hybrids, Cylindrocarpon cylindroides var.tenue, infection 2010. root rot, Armillaria mellea, Fomes annosus, black stain, Verticicladiella 7039. Abies firma, rust, Pucciniastrum coryli, host alternation 3817. Ables fraseri, root rot, Phytophthora citricola, pathogenicity, isolation 7029. seedlings, root rot, Fusarium solani 7040.

Ables grandis,
black stain, Verticicladiella penicillata, pathogenicity, USA, Idabo 380. Abies homolepis, rust, Pucciniastrum coryli, host alternation 3817 Abbes nordmanniana,
hybrids, Cylindrocarpon cylindroides var.tenue, infection 2010.
Abbes procesa,
hybrids, Cylindrocarpon cylindroides var.tenue, infection 2010.
Abbes veltechia,
hybrids, Cylindrocarpon cylindroides var.tenue, infection 2010.
Abbes veltechia, rust, Pucciniastrum coryli, rust, Melampsora epiphylla 3817. Abletic acid, biodegradation, Mortierella isabellina, association, softwoods detoxification 8453. Mortierella isabellina, detoxification 8470. Abacesses, bacteria, incidence, pigs carcasses, abattoirs 136. Abaciste acid, Rotevits cinerea 9160. Abaciste acid, biosynthesis, Botrytis cinerea 9160. Bouteloua gracilis, levels, association, mycorrhizas symbiosis 6073. Cercospora rosicola, biosynthesis, liquid culture, high-performance liquid chromatography 7402. levels, Nicotiana tabacum, tobacco mosaic virus infection effects on 296. Abdida corymbifera, cellulose biodegradation 74.

anotox, hydrogen sulfide, fatty acids, growth inhibitors, Clostridium sporogenes, anaerobic environments 9092.
digestive tract, cephalosporins derivatives, antimicrobial activity, patents

1214. ipids, aflatoxicosis effects on, chickens 196. oxygen, aeration tanks, pressure, effects on 4872. phosphorus, nitrogen, Cruciferaceae, mycorrhizas effects on 8757.

416.

Pontoscolex corethurus, effects on soil microorganisms population density 5316. soil microorganisms, agricultural practices effects on 5388. soil microorganisms, soil microorganisms, soil microorganisms, soil microorganisms, soil microorganisms, soil moisture effects on, crop fields 7802. Typhula incarnata, Belgium, Triticum aestivum crop rotation effects on 1068. Abutlion theophrasti, Fusarium lateritium infection, pathology 3707. Acacla nutchella. Acacia pulchella, roots volatiles effects on Phytophthora cinnamomi 351 Acacia pulchella var.glaberrima, Acacia pulchella var glaberrima, growth, nodulation, introgen fixation, nutrient dynamics 6094.
Acacia senegal, savannahs, nitrogen cycle, organic matter decomposition 7084.
Acacia umbracutifera, Phellinus pomaccus 383. Acanthospermum hispidum, little leaf, Mycoplasma-like organisms, pathology 5213. Acaracides, avermectins, Streptomyces 4402. Acart,
ryegrass mossic virus disease transmission 1870.
Acaulospora laevis,
growth stimulation, Lycopersicon esculentum 9702.
infectivity, growth, Medicago sativa 3852.
spore germination, herbicides, fungicides, effects on 3879.
Acaulospora laevis,
mycorrhizas, survival, viability, relationship, roots death 2939. Acaulospora scrobiculatus, mycorthizas, Glycine max, effects on yield 8730. Accipiter virgatus gularis, Newcastle disease virus, neuraminidase, activity 2533. Acclimation, microorganisms, dyes, activated sludge 4027. Accumulation, Acromonas hydrophila, hemolysins, proteinase, media 1639. phenols, crop rotation, effects on soil microorganisms activity 8727. Acer platanoides, Acer platanoides,
Acer platanoides, biodegradation, Xylariaceae, association, white rot 4525.
Acer pseudoplatanus,
leaf blotch. Ophiognomania pseudoplatani, British Isles 3812.
leaf blotch. Ophiognomania pseudoplatani, British Isles 3812.
leaves, sulfur air pollution deposition, nutrient sources, Fusarium solani,
Thiobacillus thioparus 5292.
Philalophora cinerescens, glycopeptides, effects on 1113.
sooty bark, temperature, water stress, effects on 384.
Acer saccharum,
soil, humic acids, Serratia marcescens, nitrogen, effects on 2076.
Acceraticallus Aceratugallia, disease transmission vectors, Vinca rosea, plant diseases, potato yellow dwarf virus 6910. Acetaldehyde, antibacterial activity, soft rot, Erwinia carotovora, Solanum tuberosum 1923. carbon sources, Candida utilis culture 5685. butyrate, induction, acetone, butanol production, Clostridium acetobutylicum 4279. Clostridium thermoautotrophicum sp.nov. biosynthesis 2088 Construint methodology 6524.

Acetate kinase, biosynthesis, Bacillus stearothermophilus, culture methodology 6524.

21-Acetate-39, 17cz, 21-trihydroxy-5-pregnenone-20,

Corynebacterium mediolanum, conversion, cell cycle effects on 9271. Acetic acid. cette acid, association, enhancement, Klebsiella pneumoniae, production, 2,3-butanediol 9246. biosynthesis, Acetobacter immobilized cells 9156. biosynthesis, Eubacterium limosum, use, betaine 2522. biosynthesis, soil microorganisms, decomposition, crop residues 3854. carbon sources, Candida utilis culture 5685. effects on, denitrification, sewage sludge microorganisms, continuous culture 2301.
effects on, Penicillium chrysogenum penicillins production 6253.
preservatives, forage, Brassica napus 8505.
production, Acetobacter aceti, yeasts extracts effects on 9154.
production, immobilized cells, Acetobacter, oxygen transfer 7398.
Zea mays silage, effects on fermentation 5071.
Acetic acid bacteria,
prost-baryest decay, amples, pears 7747. Acetive acu bacteria,
post-harvest decay, apples, pears 7747.
Acetivbrio cellulyticus,
± Methanosarcina barkeri, Desulfovibrio, production, methane, carbon dioxide,
use, cellulose 2978.
Acetoacetyl-CoA reductase,
purification, characterization, substrate specificity. Zacologo methane Acetobacter, characterization, substrate specificity, Zoogloea ramigera 2540.
Acetobacter, immobilized cells, acetic acid biosynthesis 9156. immobilized cells, acetic acid production, oxygen transfer 7398. isolation, media (selective) 5672. β-lactam antibiotics biosynthesis, radioactive labelling 8058. post-harvest decay, apples, pears 7747. Acetobacter aceti. Acetobacter aceti, acid production, yeasts extracts effects on 9154. aldehyde dehydrogenase, purification, characterization 4247. Acetobacter rancens, fermentation, cocoa beans 4982. Acetobacter suboxydans, fermentation, glucanic acid production, mathematical models 8301. Immobilization, use, carrageenins gels 703. assays, detection, microorganisms contamination, fruit juices, food quality 3469. biosynthesis, Streptococcus lactis subsp.diacetilactis encapsulation, effects on cheese flavor 144. Acetone biosynthesis, Clostridium acetobutylicum, pH, butyrate, effects on 6629.

bacteria, pollution effects, zinc 663. mycorrhizas, rhizosphere microorganisms, Plantago lanceolata, factors affecting

Acid rain, (continued) +butanol biosynthesis, Clostridium acetobutylicum, continuous culture, pollution effects, organic matter decomposition, forests, mathematical models association, pH, ammonium 8422. Clostridium acetobutylicum, production, induction, acetate+butyrate 4279. pollution effects, soil properties, soil microorganisms, nitrification, forests Clostratum accionitylum, production, indicator, see N-Acetyl agalactosaminoglycan deacetylase, Neurospora crassa, purification, characterization 8309. 3-O-Acetyl-4"-O-isovaleryitylosin, ribosomes binding, Staphylococcus aureus 9768. Acid-fast stain, methodology, bacteria, histology 7324. Acid-fast staining, sputum smears, microscopy, Mycobacterium tuberculosis 4142. ribosomes binding, Staphylococcus aureus 9768.
Acetyl-D-plenylglycine,
equilibrium distribution 8079
3. (N-Acetyl-N-hydroxyamino)-2(R)-hydroxypropylphosphonic acid,
Streptomyces rubellomurius, structure 645.
3. (N-Acetyl-N-hydroxyamino)propylphosphonic acid,
Streptomyces rubellomurius, structure 645.
3. Acetyl-H-hydroxya-6-methyl-2H-thiopyran-7-one,
derivatives, antimicrobial activity, bacteria, fungi 7196.
19-9-Acetylchaetoglobosia,
biosynthesis, structure. Chaetomium globosum 3432. Acidaminococcus fermentans, glutaconate CoA-transferase, purification, characterization 2507, isolation cow's milk, identification, triacylglycerol lipase characterization Acidic drinking water, effects on, growth, biochemical characteristics, rats, rabbits 689. Acidification ourdough bread, Lactobacillus interaction yeasts 3470. biosynthesis, structure, Chaetomium globosum 3432. Acetylcholine, sourdough ureau; acateman, Acidity, soil, symbiosis, Rhizobium, Glycine max, factors affecting 1200. Acidogenie bacteria, fermentation, milk products, patents 6710. sediments, aquaria 3171. Acidophilic bacteria, coal sulfur leaching 8762. release, Clostridium botulinum neurotoxins effects on, role calcium. uromuscular junctions, frogs 8553. Acetylcvsteine. ciation, carbenicillin, antibacterial activity, Pseudomonas aeruginosa 8935 Acetylene. carbon sources, denitrification, soil properties 9721.
reduction, Rhizobium, nitrogenase, Glycine max 3867.
Acetylene dicarboxylle ether,
derivatives, antiviral activity 549.
Acetylene reduction, enumeration, milk, media (culture), methodology 2684. aromatic compounds, oxidation, Pseudomonas aeruginosa, association DDT aromatic compounds, oxidation, Pseudomonas seruginosa, association Di-biodegradation 9288.
Clostridium difficile, characterization, gas chromatography 3268.
hydrolysis, agricultural wastes, ethanol production, yeasts, reviews 6644.
hydrolysis, lyomoca batatas fermentation, factors affecting 936.
hydrolysis, wastes paper, association, single-cell protein production,
Scytalidium acidophilum 4877. Medicago sativa, Lupinus mutabilis, nodulation, Rhizobium, semiarid environments 5375. 5375.
nitrogen fixation, forests wetlands, USA, Florida, nitrogenase activity 7093.
nitrogen fixation, genotyping, plant breeding, Oryza sativa 5363.
use, measuring techniques, nitrogen fixation, bacteria 8752.
N-Acetylgucosamine, Escherichia coli, synthesis 31.
N-Acetylgucosamine-6-phosphate deacetylase, assays, Candida albicans 5732.
N-Acetylneuraminka cdd, derivatives, induction, Arthrobacter sialophilus neuraminidase 9201.
z-Acetylpyridine thiosemicarbazones, derivatives, antibacterial activity, Mycobacterium, kinetics, in vitro, assays 1290. organic compounds, wastes, production, man 833.
phosphatase activity, sludges, digestion (anaerobic) 1469.
+ potassium sorbate, effects on bacteria, food isolates, in vitro 2152. airborne microorganisms, cattle houses, weather effects on 6402 airborne microorganisms, cattle houses, weather effects on 6402. animal isolates, identification methodology 8261. antibacterial activity, ceforgarzone 8920. antibacterial activity, ceforgarzone 8920. antibacterial activity, moxalactam, in vitro 631. antibiotic MKO787, antibacterial activity, B-lactam antibiotics 6282. antibiotics activity, T-hydroxytropolon 5492. benzoic acid, metabolism, anaerobic conditions 779. biodegradation, toxicity, aromatic compounds 2658. clinical isolates, antibacterial activity, ceftazidime 4681. clinical isolates, antibacterial activity, ceftazidime comparison cephalosporin antibiotics 4683. 1290 Achaea janata biological control, toxicity, Bacillus thuringiensis var.thuringiensis, Bacillus thuringiensis var.kurstaki 7758.

Achaetomium globosum, contamination, spices 3473 Achatina, antibiotics 4683. clinical isolates, antibacterial activity, mezlocillin 9853 digestive tract, passage, Phytophthora palmivora, survival, soil 9697. clinical solates, antibacterial activity, mezlocillin 985.3. clinical isolates, antibacterial activity, rocephin 3976. clinical isolates, entibacterial activity, 4692. clinical isolates, ceftazidime, antibacterial activity 4692. composition, activated sludge, dilution effects on, continuous culture 2309. contamination, blood products, thawing, water baths 6407. contamination, buttermilk 2696. effects on linonin biodegradation, bitterness, orange juice 1806. N-forminidoyl thienamycin, comparison, β-lactam antibiotics, antibacterial infection, Oryza sativa, pathogenesis, Philippines 4419. RNA polymerase II, purification, characterization 1704. Achiya orion, aryloxyalkanols, antifungal activity 532.

Acholeplasma laidlawii, detection, autoradiography, cell culture 1531, media (culture) 8203. Achras sapota, Achras sapota, son tot, post-harvest decay, Phomopsis sapotae sp.nov 3744. Achromobacter, -formimidoyl thien activity 8082. isolates, fish, shrimp, Cybium, Stromateus, Penaeus, fishery products 3477, isolation, nosocomial environments 8134. Achromobacter, adenosine-51-tiphosphate biosynthesis, culture, patents 5863.
rhizosphere microorganisms, pathogenicity, Beta vulgaris crops, identification, characterization 5205.
Achromobacter cycloclastes, L-lysine biosynthesis 5710.
Achromobacter delicatulus, leaching, mineralization, potassium, phosphorus, soils (volcanic) 9744.
Achromobacter obae sp. nov., L-lysine biosynthesis 5710.
Acid ohosphatase. asonadori, поволенная environments 81.34, meat, spoilage, temperature effects 112.
+ Morazella colonies, sodium phosphate, sodium chloride, effects on 3918.
Norflaxacin, antibacterial activity, comparison, chemotherapeutics, oral administration 8071. plasmids, relationship, PCB biodegradation 9267. radioresistance, beef sterilization 3901. Acinetobacter calcoaceticus, antibacterial activity, cefotiam 5518. antibiotic resistance, spectinomycin, inactivation 2111.
antibiotic sensitivity testing, cephalosporins 9777.
biosynthesis, penicillinase, inhibition, sulbactam, antibiotic synergism, mice
1431. Acid phosphatase, activity, mice, Staphylococcus infection, antibiotics treatment effects on 8049 , amino acid sequence, carbohydrate composition, quaternary structure, Rhodotorula glutinis 2606. ceftizoxime, antibacterial activity, in vitro 591. emulsan biosynthesis, association, chloramphenicol 9214. emulsifiers biosynthesis, characterization 6631. Colletotrichum gloeosporioides, enzymes polymorphism, esterase, aminopeptidase 4931. Lactuca sativa, activity, Arthrobacter hormones effects on 6617. Mycobacterium, activity, fluorescence tests, role 4-methylumbelliferone 7341. Penicillium charlesti, biosynthesis, bioaccumulation 13. purification, characterization, cell walls, Saccharomyces cerevisiae 2543. purification, characterization, Saccharomyces cerevisiae 8371. Saccharomyces rouxii, glutaraldehyde inactivation, kinetics 7469. yeans, activity, detection, sale, bioassays 4974. emilistifers biosynthesis, characterization 0631.
identification, AutoMicrobic test 3301.
isolation, spices, food quality 5033.
oxidation, 3-chlorobenzoate, physiology 8442.
pili, role, adherence, bexadecane, biodegradation 9756.
Achietobacter caleoaceticus subsp.antiratum,
antibiotic resistance, association, transposons, plasmid RP4 7889. Acinetobacter calcoacetiucus, ceftriaxone antibacterial activity 6242. Acid production bacteria, glucose metabolism, anaerobic conditions, N.M.R. 2518. Aclacionomyca, aniuacurata acuvity 0.242.
Aclacionomyca, aniuacus, biosynthesis 2289.
Aclacionomyca, Aclacionomyca, Aclacionomyca, aniuacus, biosynthesis, structure 1745.
Streptomyces galilaeus, biosynthesis pathway 1744.
Acremonium, occess, gacose meanorism; auscripton communs, N.M.R. 216.
cheese production, use, Streptococcus lacis, effects on 5050.
digestion (anaerobic), sewage sludge, models 6364.
Enterobacterisacea, media (culture) 8263.
Lactobacillus casei, Lactobacillus bulgaricus, association milk, temperature
effects on 6708. pH effects on, activated sludge, digestion (anaerobic), glucose, growth rate antigens detection, enzyme-linked immunosorbent assay, Festuca arundinacea tissues 9400 6.338. Saccharomyces cerevisiae, extracellular levels, metabolites, gas chromatography measuring techniques 7483. silage fermentation, Zea mays, Medicago sativa, lactic acid bacteria+enzymes preservatives effects on 4354. Acremonium roseum, wool biodegradation, keratin denaturation 5896. Acremonium strictum, leaf litter microflora, Ilex aquifolium 2035 preservatives effects on 4354, starter cultures, standards, cheese 5047. Streptomyces, association humic acids biodegradation 9283. temperature effects on, activated sludge, glucose, digestion (anaerobic), microorganisms, growth 6359, waste water, mines, industrial effluents, pollution sources, Thiobacillus fermoxidans 7865. succession, composting, crop residues 9887.
wilt, disease control, Chrysanthemum maximum 6978.
wilt, pathogenicity, Sorghum bicolor 9412. Acridine, dyes, effects on, Streptomyces, antibiotics biosynthesis 8911. dyes, effects on, sueptomyces, annototics biosynthesis 891. Acridine orange, immunofluorescence, identification, bacteria 9945. staining, Sacteria, cerebrospinal fluid, detection, man 1631. staining, Rhizoctonia solam nuclei 5682. Acid rain,
effects on Rhizobium nodulation, Phaseolus vulgaris, Glycine max 1182.
effects on soil nutrients, bacteria roots infection, wetwood, dieback, Abies alba

Acriflavin, effects on, Bacillus subtilis, Bacillus megaterium, spores, viability, heat Actinomycin D, (continued) parvullus 3088. parvullus 3088. gravullus 3088. effects on, cell walls, Blakeslea trispora 8877. effects on, cell walls, Blakeslea trispora 8877. Escherichia coli, yeasts, growth, susceptibility 9871. Gluconobacter oxydans, effects on levansucrase biosynthesis 9211. resistance 2159.
Acrophialophora fusipora wilt, Cicer arietinum 7643.

Acrophialophora fusispora,
Cicer arietinum wilt, identification, India 6747.

succession, Dalbergia bark, storage 1145. biosynthesis, planothiocin antibiotics, patents 6283 isolation, soil, drying, ecological distribution 7789. Acrosoxacin,
antibiotic resistance, Neisseria gonorrhoeae, clinical isolates 7112.
Acrylamide, Actionated for microscope and page to the state of the st microorganisms, production, acrylonitrile conversion, patents 6641. croorganisms, conversion, acrylamide production, patents 6641. Actin, bacteria adsorption, wastewater treatment 7275. Activated sludge, interaction myosin+ATP, inhibitors, purification, characterization, Physarum polycephalum 4182, polymerization, calcium effects on, Saccharomyces cerevisiae 9150. purification, characterization, Saccharomyces cerevisiae 9151. ctivated sludge,
aerobic conditions, anaerobic conditions, phosphate removal 9889,
bacteria composition, dilution effects on, continuous culture 2309,
bacteria, growth, stoichiometry, models 2439,
bacteria, isolation, characterization 1467,
biodegradation, Q.0-dimethyl phosphorodithioate 5583,
cadmium+nickel, effects on, reviews 3168,
callulose biodegradation 8113,
coagulants effects on 6357,
coliforms levels, indicator species, gastrointestinal tract diseases 4763,
denutrification 6356,
denutrification, models 5388 F-Actin, phalloidin interactions, silybin effects on 8548.
Actiniaria,
Erysiphe ranunculi powdery mildew, pathology, British Isles 6892.
Actinobacillus,
animals isolates, identification, API test 1585. animas isonates, identification, API tes contamination, buttermille 2696, identification, API test 1611. Actinobacillus actionymeetemcomitans, media (selective) 4857. Actinoidine, structure 8980. Actinoidine, structure 8980. Actinoidine, structure 8980. demutrication 6.356.
demutrication, models 5588.
demutrication, models 5588.
demutrication, mitrous oxide production 1473.
development, filamentous bacteria 1465.
effects on, crop residues digestion (anaerobic), methanogenesis 466.
effects on heavy metalis removal 5566.
factors affecting efficiency treatment 8117.
feeds, chickens, algae xanthophyll biosynthesis 9232.
fermentation, wastewater treatment, nitrogen removal 654.
filamentous microorganisms, bacteria, feeding regimes, substrate preferences,
effects on 1471. D-alanyl-D-alanine proteinase, amino acid sequence 4208. antigenic characteristics, immunodiffusion, Nocardia, Nocardiopsis, taxonomic significance 1570. significance (17/0).
penicillinase, purification, characterization 4211.
Actinomadura azurea sp.nov,
catinomycin, biosynthesis, structure 2259.
Actinomadura carminata, effects on 1471.
filamentous microorganisms, sludge volume index 8112.
filamentous microorganisms, staining, malachite
green+2(p-iodophenyl)-3-(p-nitrophenyl)-3-pheryl tetrazolium chloride,
observation methods 4829.
flocculation, flocculants, bacteria biosynthesis 5841.
industrial effluents, oil installations, oxygen, phosphate, effects on 3152.
industrial effluents, population dynamics, Alcaligenes, Pseudomonas, Zoogloea
6468. effects on 1471 Actinomatura carmanta;
bleomycin mutagenesis 6326.
Actinomadura kijaniata sp.nov.,
characterization, antibiotics biosynthesis, isolation, soil, Africa 8057.
kijanimicin, antibiotics, biosynthesis, antibacterial activity, characterization 6368. isolates, Cellulomonas, Pseudomonas, cellulolytic bacteria, enumeration 3155. methylene chloride, biodegradation 9272. N-methylpyrrolidone effects on 5569. microorganisms acclimation, dyes 4027. microorganisms, biodegradation, lipidis, effects on 5575. microorganisms, uitrogen removal, oxygen uptake, rates 8106. microorganisms, protein biodegradation, detection, methodology, spectrophotometry 5777. Acthomadura roseoviolacea var.biwakoensis, biosynthesis, rubeomycin, antibacterial activity, gram-positive bacteria 3119. Acthomadura roseoviolacea var.biwakoensis var.nov., rubeomycin, biosynthesis, antibacterial activity, antitumor activity 1748. Actinomucor, mycelia, amino acid composition, nutritive value 831 Actinomyces, identification, association, antibiotic sensitivity testing, methodology 8246. identification, association, autobious sensurity assurg, and Actinomyces flavus,

1.5-benzodiazocine-2-nones, transformation,

2-(acylamino-R-propyionylamido)-benzophenones 2635.

Actinomyces globisporus,

actinoranthine, structure, X-ray crystallography 6541.

Actinomyces griscinus,

B-glucanase isolation 9192.

Actinomyces israelili,

infection gallbladder man, identification 5661. models, sewage treatment 5589 inodens, sewage treatment 3369, monitoring, respiration, oxygen uptake 6370, monitoring, suspended matter 5568, nitrification, Nitrosacmens, Nitrosacret, copper, effects on 6354, nitrilotriacetic acid biodegradation 4030, utritoriacetic acid biodegradation 4030. Nitrosomonas, nitrification inhibitors 650.

+ oxygen, wastewater treatment, pulp mills, paper mills 4765.

plt effects on acid production, digestion (anaerobic), glucose, growth rate 6358, phenol degradation kinetics, dissolved oxygen effects on 5576.

phenol degradation kinetics, dissolved oxygen effects on 5576.

phenolyous, hermical oxygen demand ratio, effects on 6348.

poly-8-hydroxy butyric acid, detection, use, gas chromatography, methodology 6426. infection gallbiadder man, identification 3001.

Actinomyces naeslundii,
dental plaque, detection, enumeration, media (selective) 3290.

Actinomyces remosus,
antibiotic resistance, tetracycline, in vitro 484.

Actinomyces reaccontromogenes,
1,3-benzodiazocine-2-nones, transformation,
2-(acylamino-R-propyionylamido)-benzopbenones 2635. sewage treatment, anoxia effects on digestion (aerobic) 9893. sewage treatment, anoxia effects on digestion (aerobic) 9893. sewage treatment plants, compounds elimination, mathematical models 4759. sewage treatment plants, phosphorus, localization, characterization 5573. sludge volume index, filamentous microorganisms, effects on 4025. temperature effects on, acid production, microorganisms, growth, digestion (anaerobic), glucose 6359. toxicity, 3.5-dichlorophenol, mercuirc chloride 6360. trickling filters, wastewater treatment, sewage sludge 3157. volume, effects on, flocculants, polymers, pH 5564. wastewater treatment, composting, reviews 8120. wastewater treatment, composting, reviews 8120. wastewater treatment, industrial effluents, pulp mills 5571. wastewater treatment, industrial efficiation 4034. Actinosyses viscosis, antibiosis, Streptococcus mutans, bacteriocins 621.
antibiosis, Streptococcus mutans, bacteriocins 621.
dental plaque, detection, enumeration, media (selective) 3290.
labelling, immunoelectron microscopy, methodology, characterization 9093. labelling, immunoelectron microscopy, memodowgy, was a Actinomy creete, artibiotic BBM-928 biosynthesis, antibacterial activity gram-positive bacteria, patents 7244. bleomycetin biosynthesis, selection, mutagenesis 9219. growth, beliomycin biosynthesis 8982. hay spoilage, ammonia, antibacterial activity 5072. lignin biodegradation, applications 5897. lignin biodegradation, association, carbon cycle, reviews 9256. microflora. Cacao beans 1795. nitrogen-fixing bacteria, soil incidence, association Alnus incana 8744. nodulation, Hippophae rhamnoides subsp.rhamnoides, growth, succession, dunes 2945. wastewater treatment, institution to mosts, simulations 5990.

wastewater treatment, nitritaciation 4034.

wastewater treatment, oxygen systems effects on 8121.

wastewater treatment, placents 8123.

systematic variables, placents 8123.

wastewater treatment, placents 9890.

wastewater treatment, sludge renoval 5560. wassewater treatment, studge remova 3500.

Active sites, amino acid sequence, dihydrolipoamide reductase (NAD+), Bacillus stearothermophilus 7420.

amino acid sequence, penicillinase, chromosomes, Pseudomonas aeruginosa, Escherichia codi 7421. Dodules, incidence, Angiospermae, Pakistan 1187.

oxanosine, structure, purification 2269.

oxanosine, structure, purification 2269.

rhizosphere microorganisms, antagonism, Fusarium wilt, Lycopersicon esculentum, Citrullus lanatus 9492. naracterization, adenosinetriphosphatase, chemical modification, Escherichia coli 5820. setamycin, biosynthesis, antibacterial activity, antifungal activity 2280.
setamycin, biosynthesis, characterization 8068.
soil microorganisms, biosynthesis, methylisoborneol, carboxymethylisoborneol, characterization, alkane 1-monooxygenase, hydroxystearates competition inhibition, Bacillus megaterium 4918. innionon, Bacillus megaterium 4918.
Clostridium histolyticum, collagenase 8336.
cysteine, L-aspartic-B-semialdehyde affinity labelling, aspartate
ammonia-lyase, Escherichia coli 4894.
phenylalanine, affinity labelling, phenylalanyl-tRNA synthetase, Escherichia coli soil microorganisms, enumeration, isolation, media (selective)+rifampicin 2470. Soul incroorganisms, enumeration, sovation, income (selective) reliabilities sool inicroorganisms, incidence, population dynamics, media (selective) 6077 soil incroorganisms, species diversity, agricultural land, New Zealand 1148. soil incroorganisms, vortex, liburon, anthirmicrobial activity, resistance 449. symbiosis, Colletia, roots nodules, characterization 7068. textiles, biocides 460. (A33). Pseudomonas testosteroni steroid \(\Delta\)-isomerase, amino acid sequence, inactivation 5, 10-secoestr-5-yne-3, 10, 17-trione 4926. ribulosebisphosphate carboxylase, chemical modification, diethyl pyrocarbonate, Rhodospirillum rubrum 5767. Actinomycin, Streptomyces antibioticus, biosynthesis, antibiotic resistance, role, plasmids 4591.

Actinomycin D.

antiviral activity, Friend leukemia virus, mice, effects on erythropoiesis 5462.

antiviral activity, herpes simplex virus, replication, cell culture 7180.

biosynthesis regulation, association, tryptophan 2,3-dioxygenase, Streptomyces

Active transport,
phosphates nutrient cycles role, association mycorrhizas 4529.
tetracycline, Escherichia coli, membrane vesicles, characterization 2246.

Adenovirus (human) 17,
2-alkylamıno-5-(2'-sulfamoylphenyl)-1,3,4-thiadiazole derivatives, antiviral activity 5475. Aculeacin A. antifungal activity, Candida, Torula 6191. antifungal activity, inhibition 1,3-β-D-glucan synthase, Candida albicans, Saccharomyces cerevisiae 6192. Candida albicans, resistant mutant, isolation, characterization 9769 Acycloguanosine, antiviral activity, herpes simplex virus 1, assays 534. Acyclovir, analogs, antiviral activity, herpes simplex virus 1, role, deoxythymidine kinase 3055. antiviral activity, role, thymidine kinase, cytomegalovirus (murine) 2182. antiviral activity, viruses 5465. inhibition, cytomegalovirus (murine), in vivo 1343. phosphase derivatives, metabolism, cells, viruses infection, nucleosides, effects nodulin stimulation, Bordetella pertussis 5783. Adenylate kinase, Vibrio natriegens, marine environments isolates, purification, characterization 1712. on 2180
Acyl-CoA carboxylase, Adhatoda vasica medicinal plants, leafspot, Alternaria, alkaloids, levels, India 1935. Acyt-OA carouxyuse, Propionibacterium shermanii, characterization, isolation 1725. Acyt-CoA dehydrogenase (NADP+), purification, characterization, Escherichia coli 8394. purification, Escherichia coli 8318. Adherence. diberence, bacteria, burnaterials, use, chemotaxis chambers 5663. bacteria, surfaces, dairy industry 140. Enterobacteriaceae, Staphylococcus aureus, sutures 1496. Escherichia coli, trimethoprim, sulphonamides, effects on 7132. Salmonella, chickens museles tissues, sodium chloride, effects on 1791. Sureptococcus pyogenes, pharynx epithelium cells, antibiotics effects on, in purification, characterization, Escherichia coli 3361.
N-Acyl-5-haloalityl-thlocarbamates, fungicides, patents 6040.
N-Acyl-5-halovinyl-thlocarbamates, vitro 3970 N-Acyt-S-naiovmyt-mocarnamates, fungicides, patents 6040. 2-(Acytamino-R-propyloaylamido)-benzophenones, 1,5-benzodiazocine-2-nones transformation, Actinomyces roseochromogenes, Actinomyces flavus, Streptoverticillium cinamoneum 2635. N-Acytamino-propylammoonlum, salts, synthesis, bactericidal activity 513. Acquation Adipic acid, ntrol, early blight, Solanum tuberosum 1097. Adjuvants, +inactivation pervovirus, vaccines production, antigenicity, vaccination, dogs, clinical trials 4019. levamisole, Clostridium vaccines, patents 7261. pathogens, pest control, efficacy, Trichoplusia ni, Heliothis zea 8417. Adolescents, Acviation. Acylation, nitrogen, effects on tobramycin activity 6301.

N-Acylphosphatidylserlne,
Rhodopseudomonas sphaeroides, purification, characterizaton 4967.

Acyrthosiphon pisum,
disease transmission, pea enation mosaic virus infection, Lathyrus odoratus,
mathematical models 9360. oral hygiene, Finland 698. cefotaxime, binding affinity penicillin-binding protein, Escherichia coli, Pseudomonas aeruginosa, morphology 4715.

cefotaxime, cephalosporin antibiotics, Enterobacteriaceae 4713.
               antibiotics, in vitro modes 2207.
antibiotics, Micromonospora sagamiensis biosynthesis 8959.
antibiotics, sporaricins, structure 2283.
antibiotics, Staphylococcus epidermidis, relationship, anaerobic conditions 3061.
antibiotics, temperature effects on 4674.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            cetotaxume, cepnausoporna antibiotics, Enterobacteriaceae 4713.
cefotaxime derivatives, structure-activity relationships, gram-negative bacteria, gram-positive bacteria 3974.
cefotaxime, Enterobacteriaceae, cephalothin resistance, treatment, man, pneumonia, septicemia, urinary tract infection 7221.
cefotaxime, Enterobacteriaceae, Pseudomonas 3072.
cefotaxime, gram-negative bacteria 4714.
cefotaxime, in vitvo, comparison cephalosporins 6247.
cefotaxime, moxalactam, cefoperazone, Clostridium difficile, antibiotic sensitivity testino 7131.
               antibiotics, expression, synergism, man, in vitro 9797.
antibiotics, exerum, synergism, man, in vitro 9797.
antibiotics, exerum, synergism, man, in vitro 9797.
antibiotico, Pyricularia oryzae, spore germination 2779.
antileprotic agents, Mycobacterium leprae, statistical analysis methodology, reviews 8212.
           annieprotic agents, Mycobacterium leprae, stantsteal analysis methodology, reviews 8212.

antimicrobial agents, Neisseria gonorrhoeae, in vitro 7123.

antimicrobial agents, Neisseria gonorrhoeae, in vitro 7123.

antimicrobial agents, Staphylococcus saprophyticus 7935.

antimicrobial agents, Mycobacterium tuberculosis 3014.

antimicrobia Mycobacterium smegmatis, Mycobacterium tuberculosis 6288.

aromatic alcohols, Pseudomonas aeruginosa, Staphylococcus aureus 3912.

asparenomycrins, gram-negative bacteria, gram-positive bacteria 6335.

Aspergillus nidulans glycoproteins, antibiotic synergism, sterigmatocystin, gram-positive bacteria 7157.

association, DNA biosynthesis, haloquinone, biosynthesis, isolation, mycelia, Streptomyces venezuelae 8084.

association, gentamicin, calcium chelation 8045.

ascociation, gentamicin, calcium chelation 8045.

aclocillin, cefotaxime, ± tobramycin, clinical isolates, Pseudomonas aeruginosa 8031.

aeruginosa, Streptococcus faecalis 6228.

azlocillin, clauvlanic acid, +sulbactam, +N-fornimidoyl thienamycin, synergism, Pseudomonas aeruginosa 8031.

alcocillin, mezlocillin, antibiotic synergism aminoglycoside antibiotics, Pseudomonas aeruginosa 8933.

bacampicillin 9857.

bactaracin A. structure-activity relationships 9882.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              ceroacume, moxasacum, cetoperazone, crosmoium airnene, annisotoc
sensitivity testing 7131.
cefotaxime, Neisseria gonorrhocae 3068.
cefotaxime, structure-activity relationships, gram-negative bacteria 4712.
cefotetan, clinical isolates 4717.
cefotam 1387.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                cefotiam 5516
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              cefotiam, cefazolin, ultrastructure, Klebsiella pneumoniae, in vitro, in vivo
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            595.

cefotam, Escherichia coli, Klebsiella pneumoniae, Proteus inconstans, Pseudomonas aeruginosa, Serratia marcescens, Enterobacter cloacae, Citrobacter freundii, Acinetobacter caloacaetius 5518. enterobacter caloacaetius 518. eefotiam, Staphylococcus aureus, Escherichia coli, Klebsiella pneumoniae 1378. eefotiam, Staphylococcus aureus, Streptococcus pyogenes, Escherichia coli, Klebsiella, Proteus 1384. eefoxiin, Dacteroides fragilis 2211. eefoxiin, Bacteroides fragilis 2211. eefoxiin, Bacteroides fragilis 2211. eefoxiin, Corsulodin, ceraxidome, Pseudomonas aeruginosa, ticarcillin antibiotic resistance 4697. eefsulodin, Pseudomonas aeruginosa, Staphylococcus aureus, antibiotic sensitivity testing 1331.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            595.
               bacteria, A, structure-activity relationships 9882.
bacteria, benzimidazoles, chemical modification 9799.
bacteria, clinical isolates, norfloxacin, comparison, β-lactam antibiotics
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            testing 1381.

ceftazidime, bacteria, clinical isolates 4681.

ceftazidime, bacteria clinical isolates, disc-diffusion test standards 4705.

ceftazidime, bacteria, disc-diffusion test standards 4706.

ceftazidime, bioassays, Bacillus subtilis, Proteus 4709.

ceftazidime, clinical isolates, Enterobacteriaceae, Pseudomonas aeruginosa 4695.

ceftazidime, clinical isolates, gram-negative bacteria 4704.

ceftazidime, clinical isolates, Pseudomonas aeruginosa, Pseudomonas cepacia 4702.
           7137.

Sacteria, growth inhibitors, Hydrodictyon reticulatum, Aphanothece nidulans, Chlorella vulgaris 7930.

Bacteroides, Streptococcus salivarius, isolation, charcterization 2272.

Bacteroides fragilis, thienamycin, moxalactam, ceftizoxime, cefoperazone, cefotaxime 5112.

bacteroides, Legionella pneumophila, use cooling water 7149.

bastodin, Lambellabasta, gram-positive bacteria 1319.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          ceftazidime, clinical isolates, Pseudomonas aeruginosa, Pseudomonas cepacia 4 ceftazidime, comparison B-lactum antibiotics, aminoglycoside antibiotics, cephalosporins, clinical isolates, gram-negative bacteria 4686. ceftazidime, comparison B-lactum antibiotics, antibiotic resistance, role, penicillinase 4682. ceftazidime, comparison B-lactum antibiotics, ceftriaxone, clinical isolates, gram-negative bacteria, gram-positive bacteria, gram-positive bacteria, gram-positive bacteria, Haemophilus influenzae 4688. ceftazidime comparison B-lactum antibiotics, gram-negative bacteria, gram-positive bacteria,
         bastadin, fanthellabasta, gram-positive bacteria 1319.
bekanamycin 5549.
benzol bjkhiophene-3-carbamjc acid esters, synthesis 1299.
a<sup>4</sup>-O-benzoyl-pyridoxine, a<sup>2</sup>-O-benzoyl-pyridoxine 1298.
2-benzoyl-aminothiophene-3 carboxylate 6159.
L-benzyl-4-nirolimidazole-5-thioacetic acid derivatives, synthesis 3020.
N-[a<sub>10</sub> a<sup>2</sup>-Bis(aryl)-sec-alkyl-1, 3-damino-2-propanol, N-[a<sub>10</sub> a<sup>2</sup>-Bis(aryl)-sec-alkyl-1, 3-damino-2-propanol, Pseudomonas aeruginosa 8859.
butylated hydroxyanisole, Bacillus, food preservatives 5100.
butylated hydroxyanisole, propylparaben, Salmonella typhimurium, characterization 7153.
capetimycin, clinical isolates 7147.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            ceftazidime, comparison cephalosporins, clinical isolates, gram-negative bacteria, gram-positive bacteria 4685. ceftazidime, comparison cephalosporins, clinical isolates, anaerobic bacteria
               capetimycin, clinical isolates 7147.
         capetimycin, clinical isolates 7147.

Caprocytophaga, antibiotics, antimicrobial agents, sensitivity 517.

captan, Escherichia coli, effects on RNA biosynthesis 7913.

carbenicillin, association, acetylcysteine, Pseudomonas aeruginosa 8935.

carbenicillin, boric acid, Pseudomonas aeruginosa, clinical isolates 9858.

carbenicillin, icarcillin, gram-negative bacteria 2223.

catalase mediation peroxidase, Mycobacterium tuberculosis 2146.

catamine AB 8848.

cecropin A, peptide synthesis 9878.

cecropins, Hyalophora cecropia 7918.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      4693.

ceftazidime comparison gentamicin, cephalosporin antibiotics, clinical isolates, gram-negative bacteria, gram-positive bacteria 4684.

ceftazidime, disc-dilution test, clinical isolates, gram-negative bacteria, gram-positive bacteria 4707.

ceftazidime, gram-negative bacilli, nosocomial environments 588.

ceftazidime, gram-negative bacteria, gram-positive bacteria 4680.

ceftazidime, gram-negative bacteria, gram-positive bacteria 4680.

ceftazidime, gram-negative bacteria, gram-positive bacteria 4680.

ceftazidime, gram-negative bacteria, gram-positive bacteria 4700.

ceftazidime, gram-negative bacteria, gram-positive bacteria 4700.

ceftazidime, gram-negative bacteria, gram-positive bacteria, antibiotic sensitivity testing 4708.

ceftazidime, growth curves, Escherichia coli, Pseudomonas arruginosa 4699.

ceftazidime, Pseudomonas aeruginosa, Pseudomonas, cations effects on 4711.

ceftazidime, Pseudomonas, Enterobacteriaceae, cephalothia, cefturoxime, ceftoatume, moxalactam, in vitro 1372.

ceftazidime, pseudomonas, Enterobacteriaceae, Klebsiella, Serratia, Proteus, Staphylococcus aureus, in vitro 1371.

ceftazidime, pseudomonas, Enterobacteriaceae, epseudomonas cations effects on 4711.

ceftazidime, coxicity, antibiotics tafont, immunosuppression, pharmacokinetics, conferences and the pharmacokinetics, conferences and the pharmacokinetics, conferences and the ceftizoxime.

Description of the pharmacokinetics of the pharmacokinetics of the ceftizoxime.

Description of the pharmacokinetics of the pharmacokinetics of the ceftizoxime.

Description of the pharmacokinetics of the pharmacokinetics of the ceftizoxime.

Description of the pharmacokinetics of the pharmacokinetics of the ceftizoxime.

Description of the pharmacokinetics of the pharmacokine
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              ceftazidime comparison gentamicin, cephalosporin antibiotics, clinical isolates,
         ceradroxii 39/7.
cefadroxii, in vitro 2215.
cefadroxii, in vitro Escherichia coli, Staphylococcus aureus, Klebsiella
pneumoniae, in vivo 1370.
cefadroxii, Staphylococcus aureus, Streptococcus pyogenes, Escherichia coli, in
           vitro 2214.
cefamandole 8916.
           cefatrizine, Staphylococcus epidermidis, Staphylococcus aureus, Escherichia coli
         cefazolin. +dicloxacillin, in vitro 8021.
       cefazolin, +dicloxacillin, in vitro 8021.
cefmenoxime, effects on, morphology, Escherichia coli, Serratia marcescens 3071.
cefmenoxime, Escherichia coli, Serratia marcescens, morphology 2221.
cefmenoxime, penicilinase, stabitity 8024.
cefmenoxime, Enterobacteriaceae, Staphylococcus aureus, Bacteroides fragilis,
Haemophilus influenzae, Neisseria gonorrhoeae 5523.
cefmetazole 8011.
cefmetazole comparison cephazolin, Escherichia coli experimental infection, rats
4716.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          certizoxime, Carlzolia, Enterboaceriaceae, Pseudomonas aeruginosa 587. certizoxime, Cefazolia, Enterboaceriaceae, Pseudomonas certizoxime, Neisseria gonorrhocae, 3068. certizoxime, Pseudomonas ceperais, Flavobacterium meningosepticum, Alcaligenes faecalis, Acinetobacter calcoaceticus, Pseudomonas aeruginosa, Pseudomonas putida, in vitro 391.
         4/10.
cefmetazole, Klebsiella pneumoniae, Escherichia coli, Staphylococcus aureus, infants, man 1377.
cefmetazole, serum levels, man, high-performance liquid chromatography 8229.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        pauda, in vitro 391. 
cefriiaxone, anaerobic bacteria, comparison, β-lactam antibiotics 8017. 
cefriiaxone, Enterobacteriaceae, Pseudomonas aeruginosa, Enterobacter cloacae. 
Acinetobacter calcoacetiuus 6542. 
cefriiaxone, gram-positive bacteria, gram-negative bacteria, experimental 
infection, mice 2210.
         cefodizime 8931.
cefodizime, Enterobacteriaceae, Streptococcus, Haemophilus, Neisseria, Proteus
morganii, Proteus vulgaris, Staphylococcus aureus, Pseudomonas aeruginosa,
```

Antibacterial activity, (continued)

18-deoxynargenicin A1, synthesis, Staphylococcus, Streptococcus 6319.
detergents effects on skin, children, reviews 8847.
detergents, Streptococcus facealis, Micrococcus, Escherichia coli 7925.
Dettox ABC, endoscopy equipment disinfection 7926.
dibekacin 5546.
1,4-dibydro-1-ethyl-6-fluoro-7-(4-methyl-1-piperazinyl)-3-carboxylic acid 3017.
16,17-dibydrorifamycin S, 16-17-dibydro-17-hydroxyrifamycin S, structure-activity relationships 8944.
dibydroxybenzene derivatives. Escherichia coli Stanhylococcus aureus 1351. Antibacterial activity, (continued) cefuroxime. Escherichia coli, Klebsiella 5519. cephalexin+flucloxacillin 5495. cephalexin-flucioaccilin 5495.

schenichia coli, Klebsiella 5519.
cephalexin-flucioaccilin 5495.
cephalexin-flucioaccilin 5495.
cephalexin-flucioaccilin 5495.
cephalosporin antibiotics, Escherichia coli, Klebsiella 5519.
cephalosporin antibiotics, Esterobacteriaceae 4694.
cephalosporina natibiotics, Esterobacteriaceae 4694.
cephalosporina saloges, structure-activity relationships 2217.
cephalosporina analoges, structure-activity relationships 2218.
cephalosporina analoges, structure-activity relationships 2218.
cephalosporina, antibiotic resistance penicillinase inactivation, Pseudomonas aeruginosa 4584.
cephalosporins, antibiotic resistance penicillinase biosynthesis, Enterobacteriaceae, Pseudomonas aeruginosa 4585.
cephalosporins, abetreia infection, treatment, man 8857.
cephalosporins, bacteria infection, treatment, man 8857.
cephalosporins, chemical modification 8018.
cephalosporins, chemical modification 8018.
cephalosporins, chemical modification effects on 6246.
cephalosporins derivatives, structure-activity relationships, synthesis 8926.
cephalosporins derivatives, synthesis, patents 6249.
cephalosporins derivatives, synthesis, patents 6249.
cephalosporins, Enterobacteriaceae, clinical isolates 7899.
cephalosporins, Enterobacteriaceae, clinical isolates 7899.
cephalosporins, Enterobacteriaceae, clinical isolates 7899.
cephalosporins, gram-negative bacteria 8922.
cephalosporins, gram-negative bacteria 8922.
cephalosporins, gram-negative bacteria 8929.
cephalosporins, gram-negative bacteria, patents 7222.
cephalosporins, praniferational producing ferrosporing producing ferrosp relationships 8944.
dihydroxybenzene derivatives, Escherichia coli, Staphylococcus aureus 1351.
2,3-dinirrilo-1,4-dirhia-9,10-anthraquinone, Mycobacterium smegmatis 7161.
disinfectants, evaluation 519.
disinfectants, in vitro 514.
disinfectants, Spiroplasma citri, Spiroplasma 6171.
disinfectants, Spiroplasma citri, Spiroplasma 6171.
disinfectants, surface activity 7923.
disinfectants, surface activity 7923.
disinfectants, surface activity 7923.
1-dodecylpiperidine N-oxide, Staphylococcus aureus, oxidative phosphorylation 2164. 2164 drug sensitivity testing, Bordetella bronchiseptica, clinical isolates, cats, electric currents, electrodes 1317.

Enterobacteriaceae, β-lactam antibiotics 5509.

3*-epi-dihydrostreptomycin, synthesis 8940.

3*-epi-dihydrostreptomycin, synthesis 8054.

9-epileucomycin A, synthesis 8056.

Erio acid red XB 400 dye, Bacillus thuringiensis, spores, photoinactivation 2167.

erythromycin, elositsin, antibiotic synergism, Serratia

erythromycin, Bacteroides fragilis clinical isolates 620.

erythromycin, Bacteroides fragilis, Fusobacterium, anaerobic conditions, carbon

dioxide, effects on 5538.

erythromycin, characterization, treatment, bacteria infection, man 8856.

erythromycin, Laenophilus influenzae, respiratory tract isolates 2242.

erythromycin, Labongcin B, Neisseria gonorrhoeae 3995.

erythromycin, Lubongcin B, Neisseria gonorrhoeae 3995.

erythromycin, +penicillin, +ampicillin, +gentamicin, Listeria monocytogenes,

growth 8052.

erythromycin, penicillin, cephalosporons, Streptococcus group A 1272. dogs 1311. electric currents, electrodes 1317 cepaaiosporins, Pseudomonas aeruginosa 3978. cephalosporins, Pseudomonas aeruginosa, Enterobacteriaceae, cefazolin antibiotic resistance 4698. cephalosporins, Pseudomonas aeruginosa, Staphylococcus aureus, use antibiotics treatment cystic fibrosis, man 4703. cephalosporins, reviews 3975. cephalosporins, Staphylococcus aureus, Escherichia coli, Proteus, in vitro, in vivo 5526. growth 8052.

growth 8052.

erythromycin, penicillin, cephalosporins, Streptococcus group A 1272.
erythromycin, Propionibacterium acnes 1417.
Escherichia coli, measurement, enumeration spiral plater 4727.
Escherichia coli, mecillinam 605.
essential olis, Vateria indica 3952.
Esupatorium capplifolium plant extracts, Bacillus subtilis 507.
Eupenicillium abidjanum antibiotic FA-2097 6298.
extracts, Chlorophyceae, Rhodophyceae 3921.
extracts, onions, garic 3021.
fatty acids, Escherichia coli resistant mutant, role, membranes lipopolysaccharides 4580.
fatty acids, Escherichia coli resistant mutant, role, membranes lipopolysaccharides 4580.
fatty acids, Estructure-activity relationships, Bacillus subtilis, Escherichia coli 7934.
N-formimido/t thienamycin 1446. cephalosporins, Staphylococcus aureus, Escherichia coli, Proteus, in vitro, in vivo 5326. cephalosporins, Streptococcus pneumoniae 8921. cephalosporins, synthesis, patents 6250. cephalosporins, synthesis, patents 6251. cephalosporins synthesis, patents 6251. cephalotin, Bacteroides fragilis 2211. cephalotini, Bacteroides fragilis 2211. cephalotini, Bacteroides fragilis 2219. cephalotini, Bacteroides fragilis 2219. cephalotini, Bacteroides fragilis 2220. cephalotini, Bacteroides fragilis 2220. cephalotini, Comparison chlorhexidine, in vitro, in vivo 4623. N-chloramine compounds, comparison chlorhexidine, in vitro, in vivo 4623. chloramphenicol, glutamia caid excretion, growth, Citrobacter intermedius 1412. chloramphenicol, Bacteria contamination, skin cleaning products 1358. chlorhexidine diacetate, Bacillus megaterium, effects on cell membranes 7922. chlorhexidine diacetate, Bacillus megaterium, effects on cell membranes 7922. chlorhexidine diacotate, chlorhexidine dialoxiate, chlorhexidine diacotate, Bacillus megaterium, effects on cell membranes 7922. chlorhexidine, santizers, Salmonella typhimurium, Streptococcus faecalis, eggs, washing, factors affecting 1822. "Chloromorpicaline, Pseudomonas aeruginosa 4000. choloramphenicol + ampicillin, gram-negative bacteria 3965. chromomycin A3+ amphotecinin B. Bacillus subilis, in vitro 1305. cinodune, mechanisms, Escherichia coli 1441. cinoxacin, urinary tract infection, man, DNA biosynthesis inhibition 7134. Cladophora antibiotics 515. N-formimidoyl thienamycin 1446. N-forminidoy) thienamycin, cephalosporins, ureidopenicillins, comparison, Serratia marcescens 4728.
N-forminidoy) thienamycin, comparison, β-lactam antibiotics 8082.
N-forminidoy) thienamycin, comparison, antibiotics 8066.
N-forminidoy) thenamycin, comparison, piperacillin, cefouxime, cefoperazone 578.

N-formimidoyl thienamycin± gentamicin, Listeria monocytogenes, Streptococcus faccalis, Streptococcus faccalis, Streptococcus faccalis, Streptococcus faccalis, Streptococcus faccalis, Streptococcus faccalis, Streptococcus group D 8075.

N-formimidoyl thienamycin, in vitro, Streptococcus group D 8075.

Fortimicin A, B-lactam antibiotics, antibiotic synergism, Pseudomonas acruginosa 583.

fortimicin: aminorlycoside antibiotics 638. aeruginosa 583.
fortimicia, aminoglycoside antibiotics 638.
fosfonycin, Bacillus cereus, Staphylococcus aureus, effects on structure 7246.
fosmidomycin, spuengism, 8-lactam antibiotics, gentamicia, trimethoprim,
Enterobacteriaceae 8914.
furan derivatives 518.
gallic acid derivatives, Escherichia coli 2166.
gentamicin, 1/-formimidoyl thienamycin, pH effects on, Pseudomonas aeruginosa 568.
gentamicin, tobramycin, dibekacin, amikacin, clinical isolates 4673.
glycopeptides, in vitro, bacteria isolation, amniotic fluid, man 7932.
gram-negative bacteria, aminoglycoside antibiotics. Dactylosporangium
thialiandense production, patents 7241.
gram-negative bacteria, clinical isolates, gentamicin, sisomicin, aminosidine,
rifamycin 2236.
gram-positive bacteria, Actinomycetes antibiotic BBM-928, biosynthesis, patents
7244. clavulanic acid+amoxicillin 2261. clavulanic acid+amoxycillin, inhibition, penicillinase, Neisseria gonorrhoeae 3082 3082.

(Lavulanic acid, amoxicillin, antibiotic synergism, Haemophilus ducreyi, susceptibility 574.

(Lomycins, patents 7253.

(Lindamycin, patents 7253.

(Lindamycin, bacteria susceptibility, in vitro 580.

(Lindamycin, bacteria susceptibility, in vitro 580.

(Lindamycin, bacteria susceptibility, man 8864.

(Lindamycin, cefotaxime, moxalactam, N-formumidoyl thienamycin, ampicillin, oracillin, vancomycin, gram-positive bacteria 1382.

(Lindamycin, man 618. clindamycin, man 618.

clindamycin, man 618.

clindamycin, meromidzote, Bacteroides fragilis 8842.

clindamycin, meromidzote, Bacteroides fragilis 8842.

clindamycin, pirlimycin, Staphylococcus aureus 8046.

clofazimine analogs, Mycobacterium leprae, mice 1289.

clofazimine analogs, Mycobacterium intracellulare 3015.

cloraciline, Societa aureus, infection, cattle, leukocytes (neutrophilic), role, lysostaphin 723.

colicins, Colle plasmid, characterization, Escherichia coli sensitivity 2189.

complement serum, plaques immunoassays, Neisseria gonorrhoeae 9097.

compound Al-77, Bacillus pumilus 9793.

conformational analysis, N¹-phenylsulfanilamide, ionization 520.

conformational analysis, N¹-phenylsulfanilamides 1563.

cottimoxazole, crythoroycini sulfisoxazole, Sterptococcus pneumoniae clinical isolates 6273. 72.44.
gram-positive bacteria, ogon, Scutellaria baicalensis 2161.
gramicidin S derivatives, structure-activity relationships 8972.
gratisin, structure-activity relationships, supthesis 3117.
halocins, biosynthesis, Halobacterium 8074.
halocins, biosynthesis, Halobacterium 8074.
herbicides, effects on disease resistance, Brassica oleracea, Lycopersicon esculentum, bacteria infection 9524.
hetacillin derivatives, patents 7225.
3-[2"deterorylivinyl]-benzoxazinones 9830.
hexametaphosphate, gram-positive bacteria, synergism, compoundBCF 7938.
hydrogen peroxide, Levysteine potentiation, Escherichia coli 9795.
hydrogen peroxide, Peptostreptococcus anaerobius, metabolism, growth conditions, effects on 5437.
4-hydroxy-3-putrosobenzalethyde, Strentomyces viridans 1366. cotrinoxazole, topical application, burn infection isolates, in vitro 1307.
6 cyclo-octylamino-5,8-quinolinequinone, Mycobacterium tuberculosis, in vitro
506. nydrogen peroxue; e-peroxuerperocecus anaerrorus; necasorista, giuvui conaucina effects on 5437.

4-hydroxya-littrosobrazladehyde, Streptomyces viridans 1366.

1-hydroxya-nittrosobrazladehyde, Streptomyces viridans 1366.

1-hydroxya-mamycin, 1-hydroxysulfamycin 9872.

8-hydroxya-nitrosobrazladehyde, soft rot, Erwinia cartovoror, Solanum tuberosum 1923.

2-hydroxya-gamicin, biosynthesis, Micromonospora sagamiensis mutants 6315.

imidazolyethoxymethyl derivatives, synthesis, patents 6212.

in vitro, cortinoxazole, treatment, prophylaxis, bacteria infection 8862.

insulin additives, phenol+glycerol+zine, Staphylococcus peidermidis,
Staphylococcus aureus, Escherichia coli 3018.

iodine, sodium fluoride, Steptococcus mutans, pH effects on 6164.

jogline+sodium fluoride, dental cartes, rats, Streptococcus mutans, in vitro 3016.

71-pS-load-D-alanine, Escherichia coli 1301 sureus, Micrococcus luteus,
Salmonella typhimurium, Pseudomonas 8373.

Salmonella typhimurium, Pseudomonas 8373.

isosulfazecia, antibiotics, biosynthesis, Pseudomonas mesoacidophila sp.nov. cyclopentadiene derivatives, cyclopentadienone derivatives 7163. N-cyclopropyl-acetamides, synthesis, patents 6213. cycloserine, Klebsiella aerogenes, transport, cultural conditions, effects on 1442. 1442.
1-deamino-2-deoxyfortimicins, 1,2-di-epi-fortimicins 6331.
2-decarboxamido-2-acetyl-4-dedimethyl-9-methyltetracycline, Streptomyces rimosus transformation, 4-epi-ectocycline 6277.
decontamination, ozonation, formaldebyde comparison, isolation wards 5601.
deflectins, 8-pergillus deflectus 1831.
4-O-demethyl-11-deoxydoxorubicin analogs 6328.
2-deoxy-3-demethyd fortimicin; synthesis 8952.
deoxybutirosin A derivatives, synthesis, structure 8979.

                                                                                                                                                                                                                                                                                                                                                                                   soil isolates 9785.
chloramphenicol, Escherichia coli, genes, transcription, phage P1CM effects on
                                                                                                                                                                                                                                                                                                                                                                                   chloramphenicol, Pseudomonas aeruginosa, chloramphenicol acetyltransferase characterization 1278.
                                                                                                                                                                                                                                                                                                                                                                                   cuiracuerization 12/8.

(hloramphenicol, Salimonella typhi, isolation, typhoid fever, man 1256.

clinical isolates, Haemophilus influenzae, Streptococcus pneumoniae,

Streptococcus group A, Staphylococcus aureus, agar dilution test 6143.

clinical isolates, Klebsiella, Escherichia coli, Staphylococcus aureus, mastitis,

cattle 3895.
         characterization, physicochemical properties 4005.
           structure 4006
  Antibiotic MK-0366,
 antibacterial activity, in vitro, urinary tract infection isolates 7138. Antibiotic MK0787,
Antibiotic Mik0787,
antibacterial activity, β-lactam antibiotics comparison, Staphylococcus
aureus, Pseudomonas aeruginosa, Bacteroides fragilis, Enterobacteriaceae,
Acinetobacter, Serratia 6282.
Antibiotic P-1894B,
biosynthesis, Streptomyces, inhibition, prolyl bydroxylase 2284.
Antibiotic prophylaxis,
Aves, psitacosis, chloretracycline, detection methodology 6496,
witt, Verticillium albo-atrum, Lycopersicon esculentum 1135.
Antibiotic P-8-5.
                                                                                                                                                                                                                                                                                                                                                                                   cattle 3895.
Clostridium difficile, antibiotic synergism, antibiotic sensitivity testing 5505.
cloxacillin, streptomycin, antibiotic sensitivity testing, Moraxella bovis 6156.
coliforms, food isolates 1270.
coliforms, seawater, Kuwait 6140.
                                                                                                                                                                                                                                                                                                                                                                                  contions, soda storates 12/1/.

Coryaebacterium, man skin isolates, media (enrichment) 3000.

Cyclobexmide, Candida tropicalis, food isolates 8821.

determinants, macrobide antibiotics, lincosamide, steptogramin, gram-positive cocci, anaerobic bacteria, genes transfer 8815.

development, Haemophilus influenzae rifampin resistant mutant 4606. diffusion tests, Neisseria gonorrhoeae clinical trals 8820.

DNA, plasmids, Treponema pallidum 4594.

enteric bacteria, pathogens, association, diarrhea, children 4612.

Enterobacter cloacae, efamandole, association penicillinase 9765.

Enterobacteric locacae, cefamandole, association penicillinase 9765.

Enterobactericaceae, antibacterial activity, cephalosporins 7899.

Enterobacteriaceae, antibacterial activity, cephalosporins 7899.

Enterobacteriaceae, antibacterial activity, cephalosporins 7899.

Enterobacteriaceae, antibacterial activity, ceftazidime, comparison cephalosporins 4690.

Enterobacteriaceae, noscoomial environments isolates, role, R factors 4611.

Enterobacteriaceae, noscoomial infection, neonates, man, sepsis, observation methods 7322.

ejidemiology, hospitals, mathematical models 2117.
  whit, verterman and another properties of escalential (193).
Antibiotic PS-5,
inhibition, penicillinase, Streptomyces cacaoi, Bacillus cereus, enzyme kinetics
                     1716
                      biotic PS-8,
         Streptomyces cremeus subsp.auratilis, biosynthesis, antibacterial activity 8967. 
ntlibiotic resistance, Acinetobacter calcoaceticus, cephalosporins, antibiotic sensitivity testing 9777. 
Acinetobacter calcoaceticus subsp.anitratum, association, transposons, plasmid
         Rela 7889. acquisition, Staphylococcus aureus strains, association phages 4587. acquisition, Staphylococcus aureus strains, association phages 4587. acrossoxacin, Neisseria gonorrhoeae, clinical isolates 7112. amikacin, Escherichia coli, plasmids, role, aminoglycoside phosphotransferase, genetic analysis 2099.
         generic analysis 2099.

amikacin, gentamicin, Staphylococcus aureus 499.

amikacin, Serratia marcescens, plasmids, characterization 6145.

aminoglycoside antibiotics, Earterobacteriaceae clinical isolates 8789.

aminoglycoside antibiotics, Eacherichia coli, Pseudomonas aeruginosa, enzymes 8790.
                                                                                                                                                                                                                                                                                                                                                                                   methods 7322.
epidemiology, hospitals, mathematical models 2117.
erythromycin, Escherichia coli, plasmid pSM7322 2092.
erythromycin, ilincomycin, role, plasmids, Staphylococcus aureus 1277.
erythromycin, penicillin, cephalosporins, Streptococcus group A 1272.
erythromycin, rRNA operons, mutation, Escherichia coli 9763.
Escherichia coli 3005.
Escherichia coli 3005.
Escherichia coli, animal isolates, streptomycin, tetracycline, chloramphenicol 2007.
         aminoglycoside antibiotics, gram-negative bacteria antibacterial activity 3092. 
aminoglycoside antibiotics, mechanisms, bacteria, clinical isolates 9778. 
aminoglycoside antibiotics, Staphylococcus aureus, inactivation, role enzymes 8793.
                                                                                                                                                                                                                                                                                                                                                                                             2997
                                                                                                                                                                                                                                                                                                                                                                                   2997.
Escherichia coli, clinical isolates, Aves 7881.
Escherichia coli, clinical isolates, characterization 3898.
Escherichia coli, coliforms, transfer, Salmonella, R factors, antibiotic sensitivity testing, agar diffusion test 5402.
Escherichia coli, incidence, chickens 4578.
Escherichia coli, incidence, military personnel, institutions, man, Switzerland,

40710. oxen bile, Phytophthora infestans 6181. Penicillium urticae, Beauveria bassiana, conidia, survival, soil, factors affecting 1164.

pentachlorophenol, Trichoderma, Scytalidium, Fusarium 2921.

phenol, gluiaraldehyde, iodophor, quaternary ammonium compounds, dermatophyte fungi, yeasts 5271.

phenols, Phytophora parasitica, Verticillium albo-atrum, Colletotrichum musae, growth, reproduction 3029.

phytoalexins, Glycine max, characterization 2168.

phytoalexins, plant diseases, Puccinia recondita, Pyricularia oryzae, Phytophthora infestans, Bottytis cinerea, Cercospora arachidicola, Plasmopara viticola 5278. Penicillium urticae, Beauveria bassiana, conidia, survival, soil, factors 1532.

bacteria, serotyping, methodology 8234.

blackgram mottle virus, infection, Glycine max, Vigna radiata, isolation, characterization 7632.

cassava latent virus, infection, Nicotiana benthaminia, localization 8626.

Fusarium oxysporum f.sp. vasinfectum 6.
glycoproteins, herpes simplex virus 1, herpes simplex virus 2, purification, immobilization, monoclonal antibodies 3218.

influenza A virus recombinants, genomes structure, rimantadine resistance 9772.

Nocardia, Actinomadura, Nocardiopsis, immunodiffusion, taxonomic significance 1570. pigments, Pseudomonas, susceptibility, fungi, characterization 4646.

Pinus kesiya extracts, Alternaria alternata, Bipolaris monoceras, Cladosporium herbanun, growth, spore germination 133,55.

Pityrosporum ovale, miconazole, econazole, nystatin, amphotericin B, cell culture 525. peanut mottle virus infection, Leguminosae, bost range 7637. Rhizobium trifolii, incidence, soil, New Zealand 444, sexually-transmitted diseases, serological tests, phospholipids relationship 6488. plant extracts, Daucus carota roots, Myocentrospora acerina 1330.
plants essential oils, screening 3023.
polyacetylene phytoalexins, Lycopersicon esculentum, leaf mold, Cladosporium fulvum 326. 0488.

tobacco mosaic virus, immunoelectrophoresis 712.
Urcaplasma urealyticum, enzyme-iniked immunosorbent assay 6502.
Vibrio cholerae mutants lipopolysaccharides 8537.
Antigenic determinants,
Epstein-Barv virus, detection, monoclonal antibodies 3235.
mammary tumor virus, detection, assays 4073.
pepides, hepatitis B surface antigen, gel filtration, guanidine hydrochloride 8201. fulvum 326.

Populus deltoides, pinocembrin biosynthesis 9553,
propionic acid, sorbic acids, corn storage 3516,
pyridine 2-thiones, Borytis, patents 7176.
pyridine 2-thiones, patents 7179.
quintozene, Rhizoctonia solani drug resistance 9807.
rishitin, Bortytis cinerea 3783.
role disinfectants, yeasts annian isolates 4640.
role disginatants, yeasts annian isolates 4640.
role lignins, suberins 4472.
Saccharomyces cerevisiae, Candida parapsilosis, Candida albicans, econazole,
thiamine, role 3033. 8201.

Staphylococcus aureus protein A, role, herpes simplex virus 4837.
Ureaplasma urealyticum, immunofluorescence 3278.

Antigenic properties,
Corynebacterium vaginale, indirect fluorescent antibody test 1543.
Streptococcus pneumoniae 1451. uniamine, role 302, setamycin, antibacterial activity, biosynthesis, actinomycetes 2280. sodium diacetale, calcium propionate, fungi, fermentation residues 6183. substituted aromatic compounds 2171. subfornyl dibromacetates, patents 7912. 1,3,4-thidiazole [3,2-a]pyrimidin-5-one derivatives 7947. Streptococcus pneumoniae 1451.

Antigenicity,
Clostridium perfingens enterotoxins, structure-activity relationships 3607.
fowl pox virus vaccines, attenuation, chick embryos fibroblasts cell culture,
vaccination, chickens 3146.
hepatitis B surface antigen, morphology, Kirbychlor, chlorination, antiviral

Antigenicity, (continued)

spoilage, pests, cereals, stored products, relative humidity effects on 9546.

Aspergillus japonicus,
hydroxycinnamic acid ester hydrolase, purification, characterization 9173.

Assertillus mudlaus. hydroxycimamic seid ester hydrolase, purification, characterization 9
Aspergillus melleus,
asperfactone biocyathesis 34.
Aspergillus addulans,
antifungal activity, fenarimol, chemicals factors affecting 7171.
asparaginase, glutaminase, culture systems 3371.
autolysis, association, protoplasts production methodology 7355.
biosynthesis, sterigmatocystin 3560
chitin synthase, inhibitors, isolation, purification 2532.
culture systems effects on innazili antifungal activity 1334.
effects on cotton fibers physical properties, Sudan, Dem. Rep. 4996.
fungicides induction fenarimol efflux 4498.
glycomoteins, antibiotic synergism, sterigmatocystin, antibiocterial acspores, cell walls extracts, mutagenesis, tumorigenesis, mice 5133.

Aspergillus conicus,
antimicrobial activity, sulfur dioxide, association, wine bottles corks 7197. animicroofa activity, similar dioxide, association, wine bottles corts.

Aspergillus deflectus,
antibiotics, structure, antimicrobial activity, antitumor activity 5542.
deflectins, activity 1831.

Aspergillus fischeri, hemicellulose, biodegradation 8439.

Aspergillus flavipes,
proteinase, immobilization 4917.

Aspergillus flavus, spergillus flavus,
allatoxin B1, effects on, bacteria, fungi, soil 1827.
aflatoxin B1, relationship diseases, reviews 5125.
aflatoxin B2 biosynthesis, culture systems 2729.
aflatoxins accumulation, Oryza sativa, humdive effects on 9332.
aflatoxins biosynthesis 9328.
aflatoxins biosynthesis, association bakery products 5953.
aflatoxins, biosynthesis, benzoic acid, inhibition, Apios tuberosa, toxicity glycoproteins, antibiotic synergism, sterigmatocystin, antibacterial activity, Bacillus subtilis 7155. Bacillus subtilis 7155.
glycoproteins, antibiotic synergism, sterigmatocystin, antibacterial activity, gram-positive bacteria 7157.
oils, fatty acid composition 7497.
penicillin biosynthesis, hybridization, selection 3985.
penicillin production, mutants, genetic analysis 4718.
+ Penicillium chrysogenum, mutants, penicillin biosynthesis 3979.
proteinase induction, association, albumin proteins 7472.
succession, Dalbergia bark, storage 1145.
Aspergillus adulans var. latus,
biosynthesis, sterigmatocystin 3560. 3995.
aflatoxins, biosynthesis, culture, spices 3539.
aflatoxins biosynthesis, fish food contamination, wood smoke effects on 5961.
aflatoxins biosynthesis, media (culture) 9325.
aflatoxins, biosynthesis, oilseed crops, lipids, effects on 1834.
aflatoxins biosynthesis, role, glycolysis 2728.

Aspergillus parasiticus,
aflatoxin B₁, aflatoxin B₂, aflatoxin G₁, aflatoxin G₂, biosynthesis,
pathway, intermediates 204.
aflatoxins biosynthesis, association bakery products 5953,
aflatoxins, biosynthesis, cambon sources effects on 3544,
aflatoxins biosynthesis, carbon sources effects on 3564,
aflatoxins, biosynthesis, culture, spices 3539,
aflatoxins, biosynthesis, culture, spices 3539,
aflatoxins, biosynthesis, culture, spices 3539,
aflatoxins biosynthesis, rownth, drugs effects on 1832,
aflatoxins biosynthesis, role, glycolysis 2728,
aflatoxins biosynthesis, therperature effects on 4377,
aflatoxins, infection, Zea mays bybrids, relationship, pest resistance, Ostrinia
nubilalis 3544,
aflatoxins, seeds contamination 4376,
Allium sativum antifungal activity, poultry feeds 524. Aspergillus niger, aldose 1-enimers spergillus niger, addose 1-epimeraes, purification, characterization 4213. antifungal activity, fenapanil 7944. antifungal activity, lenapanil 7944. antifungal activity, hydrogen peroxide, disinfection, contact lenses 7169. antimicrobial activity, plant extracts, medicinal plants, Surinam 7169. antimicrobial activity, plant extracts, medicinal plants, Surinam 5483. aroma compounds production, isophorone conversion 7486. biodegradation, benzoate, salicylate 7542. biodegradation, linuron 452. biodegradation, henzoate, salicylate 7542.
biodeterioration, linuron 452.2,
biodeterioration, copra, olis 2648,
biodeterioration, pottery 9562.
biometerioration, pottery 9562.
biomass, formation, fermenters, glucose 919.
biosynthesis, o-amylase, exo-1,4,-a-D-glucosidase 8382.
biotin biosynthesis, centilorioriu use 36.
celluliase production methodology, activity 7468,
chymosin, purification, characterization 9186.
citric acid, biosynthesis, octon wastes 846.
citric acid biosynthesis, dissolved oxygen, effects on 52.
citric acid fermentation, chelating agents effects on 9153.
citric acid fermentation, cacharum officinarum molasses effects on 5711.
citric acid fermentation, cacharum officinarum molasses effects on 5711.
citric acid fermentation, oxacharum officinarum molasses effects on 5711.
citric acid fermentation, oxacharum officinarum molasses effects on 5711.
citric acid production, oranges crop residues 3343.
corn infection, storage effects, longevity 6948.
dairy products, enumeration methodology, media (culture) 6529.
effects on Aspergillus flavus aflatorius brosynthesis 2721.
effects on, thizosphere soil phosphorus levels, Ovyza sativa phosphorus uptake aflatoxins, seeds contamination 4376.

Allium sativum antifungal activity, poultry feeds 524.

Aspecgillus flavus, aflatoxin B1, ammonia degradation 189.

biosynthesis, aflatoxins, cyclic AMP, cyclic GMP, effects on 1836.

carfeine effects on aflatoxins biosynthesis, cacao beans 3372.

corn infection, aflatoxins biosynthesis, storage effects, longevity 6948, disease resistance, aflatoxins toorstamination pecans, Carya illinoensis, yield effects on 3567. effects on 3967, antifungal activity, feeds 8878. growth, aflatoxins biosynthesis, cumin, anise 3581. growth, aflatoxins biosynthesis, Lactohacillus casei effects on 1021. growth, aflatoxins biosynthesis, Lactohacillus casei effects on 4384. growth, aflatoxins biosynthesis, rubratioxin B effects on 4384. growth, aflatoxins biosynthesis, taro media 3555. growth, aflatoxins biosynthesis, taro, relative humidity, temperature, effects on 3556. growth inhibition, association, thymol 4634, growth, morphology, aflatoxins biosynthesis, β-ionone Zea mays effects on 3579. endo-1,3-β-D-xylanase, exo-1,4-β-D-xylosidase, biosynthesis, activity 9. endo-1,3,-β-D-xylanase, purification, characterization 1732. endo-1,4-β-D-xylanase mechanisms 6571. cado-1,4-D-xylamase, purification, characterization 1732.

eto-1,4-a-D-glucosidase, immobilization, methodology, characterization 5780.

eto-1,4-a-D-glucosidase, maltoderimes bydrolysis kinetics 9183.

eto-1,4-a-D-glucosidase, maltoderimes bydrolysis kinetics 9183.

eto-1,4-a-D-glucosidase, purification, peptide mapping 4243.

exo-1,4-a-D-glucosidase, purification, peptide mapping 4243.

food contamination fungi, Brevibacterium linens production antifungal agents, antifungal activity 6182.

fuit rot, post-harvest decay, histopathology, Citrus reticulata, Psidium guajava 1115.

β-D-galactosidase, estimation, lactose hydrolysis, dairy products 2690.

β-galactosidase, purification, characterization 3364.

germination, citric acid media (culture) effects on 822.

glucose oxidase, immobilized enzymes, nylon membranes 5807 glucose oxidase, purification 6582.

glucose, transfer, glycerol, role, transglucosidase 9187.

β-D-glucosidase, purification, characterization 4212.

growth, roots extracts, Abelmoschus esculentis, Lageneria vulgaris, effects on 5336. growth, morphology, arianouns boosyntness, p-nonone zea mays erice 3579, infection, Hordeum, y radiation effects on aflatoxins production 7596. morphology variants, aflatoxins biosynthesis, genetic control 3586. mutants, aflatoxins, biosynthesis, onsolorinic acid 1838. mycotoxins, diffusion, bread 5965. polysaccharides, characterization 2613. protection, aflatoxins, biostopores role 8530. protoplasts isolation, aflatoxins biosynthesis 6728. spores, Allium cepa plant extracts antifurgal activity 3925. toxins production, biodegradation, screening 5104.    rhizosphere soil, effects on phosphorus levels 9703.

Bacillus fragilis,
                                                                                                                                                                                                                                                                                                                                                                                                                                           spores, sterilization indicators, relative humidity, storage effects on 7985. 
spores, sterilization indicators, relative humidity, storage effects on 7985. 
spores, temperature tolerance, computer applications 4146. 
tryptophanyl-tRNA synthetase interactions Brown MX-5BR dyes, inhibition kinetics 
8360.
   Bacillus fragilis,
antibacterial activity, cefotaxime 1385.
antibacterial activity, cefotaxime 1386.
serotyping, use, fluorescent antibody test 1598.
Bacillus globigit,
DNA-binding protein, purification, characterization, comparison Escherichia coli
                                                                                                                                                                                                                                                                                                                                                                                                                                             utilization, Candida parapsilosis myristic acid, mixed culture 5778
                                                                                                                                                                                                                                                                                                                                                                                                                              utilization, Candida parapsilosis myristic acid, mixed culture 5778.

Bacillus subtilis,
Agaricales antibacterial activity, Pinus radiata association 6161.
algae extracts, microbiological analysis 3936.
alkaline protease, hydrolysis, esters 3389.
Amblyosporium spongiosum antibiotic 8006-l antibacterial activity 6300.
amidophosphoribosyltransferase, purification, characterization 880.

--a-mylase, immobilized enzymes, kinetics 3413.
antibacterial activity, antibiotic 8006-l 9868.
antibacterial activity, antibiotic 8006-l 9868.
antibacterial activity, chromomycin A3+amphotericin B, in vitro 1305.
antibacterial activity, fatry acids, structure-activity relationships 7934.
antibacterial activity, fatry acids, structure-activity relationships 7934.
antibacterial activity in vitro, N-chloramine compounds, comparison chlorhexidine
4623.
            media (enrichment), media (isolation), methodology 6517
 media (ennenment), media (isolation), memo Bacillus larvae, methyl bromide disinfection, apiculture 9903. Bacillus laterosporus, pH effects on deoxyribonuclease 8367.
antibacterial activity, juncusol 5439, antibacterial activity, juncusol 5439, antibacterial activity, Septopan, disinfectants 675. antibiotic resistance, tetracycline, in vitro 484. antimicrobial activity, Plant extracts, medicinal plants, Surinam 5483, antimicrobial activity, plant extracts, medicinal plants, Surinam 5483, antimicrobial agents, renierone, Reniera metabolites 3953. Aspergillus nidulans glycorpoteins, antibiotic synergism, sterigmatocystin, antibacterial activity 7155.

4. Aspergillus oryzae, culture, rice, koji 803. baciliomycin F production, isolation, characterization, antimicrobial activity 6284.

α<sup>4</sup>-0-benzoyl-pyridoxine, α<sup>5</sup>-0-benzoyl-pyridoxine, antibacterial activity 1298. bioassays, ceftazidime, antibacterial activity 4709. bioassays, sufforamides, tissues, milk, serum, animals 2454. biodegradation, hexamethylene diarnine 94. Brucella abortus extracts bestericidal activity 5138.
            glutamine synthetase, activity, characterization, nitrogen sources, effects on
            growth, bacitracin, proteinases, biosynthesis, sporulation, carbon sources,
                        effects on 2243
           effects on 2243.
liposomes+penicillins, antibacterial activity 4726.
media (enrichment), media (isolation), methodology 6517.
mushroom worker's lung, etiology, immunoprecipitation, relationship, composts,
                      dust 989
            mutants, lysine biosynthesis 1677
sugars osazones, antibacterial activity 7929.

Bacilius macerans,
endo-1,3-β-D-glucanase, exo-1,4-β-D-glucosidase, wort biodegradation
                                                                                                                                                                                                                                                                                                                                                                                                                                     biologication, hexamethylene diamine 84.

Brucella abortus extracts bectericidal activity 5138.

chloramphenicol resistance, gene expression, role, transposon Tn9 7878.

comparison, Bacillus licheniformis, α-amylase, amino acid sequence 4246.

compoundBCF, synergism, becametaphosphate, antibacterial activity, gram-positive bacteria 7938.

contamination, soft-cooked eggs, association, preservation 5069.

curing, plasmids DNA 2387.

chydration, sterility, corn cobs particles, fluidized beds, burn patients 9026.

deoxyribonuclease I, manganese stimulation, isolation, characterization 2558.

diazachalocones, 2-pyrazoline derivatives, antimicrobial activity 552.

dimethylallyltransferase, purification, characterization 2534.

1,2-dimethylydrazine, mutagenesis, assays 784

DNA biosynthesis, chlorhexidine effects on 7914.

DNA biosynthesis, inhibition trioxacarcinis, structure Streptomyces bottropensis 6297.

DNA (cytosine-5)-methyltransferase isoenzymes, purification, physicochemical
Bacillus megaterium,
alkane 1-monooxygenase, hydroxystearates competition inhibition, characterization
active sites 4918.
         active sites 4918.
antibacterial activity, butylated hydroxyanisole, food preservatives 5100.
antibacterial activity, chlorhexidine diacetate, effects on cell membranes 7922.
antibacterial activity, extracts, Chlorophyceae, Rhodophyceae 3921.

4. Aspergillus oryzae, culture, rice, koji 803.
contamination, soft-cocked eggs, association, preservation 5069.
immobilization, role, growth synchronization 2486.
Balastam antibiories antibioterial activity, structure-activity.
      immobilization, role, growth synchronization 2486.

β-lactam antibiotics, antibacterial activity, structure-activity relationships 566.
penicillin amidase, kinetics, mechanisms, mathematical models 4196.
poly-β-hydroxybutyrate, fluorescence staining, blue stain 7346.
prophages, aflatoxin B₁ induction 1019.
protoplasts, membranes 193is, polyene antibiotics 8902.
apores, viability, heat resistance, ethidium bromide, acriflavin, daunomycin, effects on 2159.
steroid 15β-monooxygenase ferredoxin, purification, characterization 6577.
                                                                                                                                                                                                                                                                                                                                                                                                                                      o.29. DNA (cytosine-5-)-methyltransferase isoenzymes, purification, physicochemical properties 3410. DNA (cytosine-5-)-methyltransferase, kinetics, mechanisms 3399. effects on phosphorus levels, Oryza sativa, rhizosphere soil 9705. electron transport, peptides, serum, rabbits, antibacterial activity 1321.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  miolazuron, nuga, cacteria, algae 7524.

Itokins, bacteria 7536.

Trichoderma komigii, carboxymethylcellulose, β-D-glucosidase, cellulase, biosynthesis 4307.

Trichoderma recsei, cellulose, Oryza sativa straw, pretreatment 6678. Trichoderma viride, cellulase, cellulase production 7462. Trichoderma viride, cellulose, collusase production 7463. Trichoderma viride, cellulose, crop residues, Zea mays 4997. tricresyl phosphate, sludge, sewage treatment models 4993.

2.4,6-trinitrotolucae, thermophilic microorganisms, composting 9257. triphenyltetrazolium chloride, Pseudomonas, temperature effects on 9284. Triticum sersivum stubile, soil microorganisms, role, soil fertility 942. Triticum straw, chemicals+cellulase, effects on 8450. L-tyrosine, Pseudomonas 7280.

Umus americana cell walls, Ophiostoma ulmi 6056. validamycin, Plavobacterium saccharophilum, intermediates, structure 1769. wastewater treatment, bacteria, Protozoa, taxonomy 656. waxes, oli, microorganisms, factors affecting 5397. wool, fungi, keratin denaturation 5896. wort, Bacillus, endo-1.3–P.-D-glucanase, exo-1.4-β-D-glucosidase 9199. Biodeterioration, beer, Lactobacillus, Streptococcus, taxonomy 7506.
             mezlocillin, penicillinase 9854.
microorganisms, alicylhenczen sulfonate, streams 87.
microorganisms, hydrocarbons, reviews 2983.
microorganisms, lipids, effects on, activated sludge 5575.
Microsporum gypseum, glucose, amino acids 5903.
morpholine, bacteria, characterization 6681.
mphthalene, Pseudomonas, bacteria, soli isolates, nitrogen sources 2646.
maphthalenesulphonate, Pseudomonas 1770.
Neurospora crassa, azo dyes 6675.
micotine-1'-N-oxide, Arthrobacer globiformis 3461.
mirlotracetic acid, activated sludge 4030.
nitrilotracetic acid, servated sludge 4030.
nitrilotracetic acid, temperature, dissolved oxygen effects on 7540.
N-nitrosamines, Lactobacillus, Clostridium, Escherichia coli, Fusiformis fragilis 943.
               O,O-dimethyl phosphorodithioate, activated sludge 5583.
oil, Anabaena variabilis, association, Mycobacterium brevicale, growth, factors affecting 9753.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  boeks, fundacillus, Streptococcus, taxonomy 7506.
books, fungi, bacteria 2650.
copra, oils, Aspergillus niger, Penicillium, Rhizopus, Diplodia, Trichoderma
2648.
           affecting 9753.

cill, bacteria, Protozoa, phytoplankton, surfactants effects on 5898.

cill, fungi, bacteria, rialroads soil 5000.

cil spills, bacteria, rialroads soil 5000.

cil spills, bacteria, France 470.

cil spills, ba

effects on, Aspergillus parasiticus, aflatoxins biosynthesis 3564.
effects on, Bacillus licheniformis, growth, sporulation, bacitracin, proteinases, biosynthesis 2243.
                                                                                                                                                                                                                                                                                                                                                                                                                                        cliences on, Bacillus Incientiormis, growth, sporulation, pactiracin, proteinases, biosynthesis 2243.

effects on, Dactylium dendroides, exo-1,4-o-D-glucosidase production 4237.

effects on, Datcylium dendroides, exo-1,4-o-D-glucosidase production 4258.

D-galactose, Pseudomonas tomato, media (culture), cultural characteristics 7337. industrial efficients, biodegradation, Salmonolla enteritidis, Pseudomonas aeruginosa, Escherichia coli 7529.

iquid culture, Mycobacterium, growth patterns, comparison 8209. media (culture), effects on Pseudomonas aeruginosa, fatty acids, polymyxin susceptibility 2420.

media (culture), Hansenula polymorpha, effects on foam 5701.

methanol, Pseudomonas, media (culture) 777.

oxygen, pH, characterization, effects on wort. Candida utilis 3872.

relationship, growth, Pseudomonas aeruginosa, drinking water 9902.

Secale cereale seeds, photosynthesis, metabolism, Claviceps purpurea 9439.

Secale cereale seeds, photosynthesis, metabolism, Claviceps purpurea 9439.

Sewage treatment, aerobic conditions, anaerobic conditions 1474.

Streptomyces gallasus, effects on anthracycline biosynthesis 7248.

utilization, identification, Neisseria gonorrhocae, Neisseria migitidis, comparison, fluorescent antibody test, agglutination 3277.

Vibrio parahaemolyticus, extracellular erazymes, effects on proteinase production, growth rate correlation 9212.

Zea mays, roots evadates, plant breeding, rhizoplane, nitrogen-fixing bacteria
 Carbinomycin,
derivatives, synthesis, toxicity testing 8083.

N-Carbobenzoxy-L-pyroglutamyl diazomethył ketone,
affinity labelling, inactivation pyroglutamyl aminopeptidase, Bacillus
amyloliquefaciens 6589.

Carbodine,
antiviral activity, influenza A virus, man 5468.

Carboduran,

Groten on Nilmann activity, influenza A virus, man 5468.
            effects on, Nitrosomonas, oxidation, ammonia compounds, rhizosphere, Oryza sativa
6103.
effects on, Nitrosomonas, Ostotaton, ammonas compounas, mizospacere, or, 6103.

Carbohydrate composition.

Carbohydrate composition.

Carbohydrate composition.

Beijerinckia indica, indican, biosynthesis, patents 6624.

Collectorichium trifolii, phytototius, toxicity, Medicago sativa 7618. fucogalactomannan, cell walls. Rhodotomula glutinis 2615.

glycolipids, Tbermus, characterization 4280.

glycoproteins, Sindbis virus 4178.

media (culture), Kowac's test, identification, Vibrio 9970.

polysaccharide, Aspergillus flavus condica 7477.

polysaccharides, biosynthesis, Streptococcus mutans, serotypes 2616.

quaternary structure, acid phosphatase, Rhodotomula glutinis 2606.

Carbohydrate metabolism, association, defoliation, Lotus comiculatus, Medicago sativa 4549.

Saccharomyces cerevisiae, nutrent status effects on 929.

Carbohydrates, binding, lectins, Streptomyces 3351.
                                                                                                                                                                                                                                                                                                                                                                                                                              Carbonyl sulfide,
detection, cysteine decomposition, paddy fields, soils 5324.

                                                                                                                                                                                                                                                                                              2137.
Serratia marcescens, resistance mechanisms, role, chloramphenicol acetyltransferase 7128.
Staphylococcus aureus, antibiotic resistance 8832.
Staphylococcus aureus, antibiotic sensitivity testing 2103.
Steptococcus peumoniae, antibacterial activity, in vitro 495.
susceptibility, Haemophilus pleuropneumoniae, animal isolates, pneumonia, pigs 4651.
  methodology 6496.
Chlamydia trachomatis
        antibodies, exerciomatics,
antibodies, exeryme-linked immunosorbent assay, micromethods 1541.
cytoplasm inclusions formation, sampling swabs effects on 4143.
genital tract infection, man, antibiotics treatment 8053.
growth, McCoy cells, cell culture, treatment, emetine 3263.
inclusions, staining methodology 6486.
                                                                                                                                                                                                                                                                                         Chloramphenicol acetyltransferase,
Pseudomonas acruginosa, characterization, antibiotic resistance, chloramphenicol
                                                                                                                                                                                                                                                                                                       1278.
        inclusions, staining methodology 6486, infection, McCoy cells, radiation, isolation methodology 8219, isolation methodology, see, cell lines, McCoy cells 1573, isolation sexually-transmitted diseases, clinical isolates, screening culture systems 5647.
                                                                                                                                                                                                                                                                                        12/0.
Serratia marcescens, role, chloramphenicol resistance mechanisms 7128.
p-Chlorantline,
pseudomonas biodegradation 7532.
Chlorate,
                                                                                                                                                                                                                                                                                               Rhizobium japonicum, resistant mutant, nitrate reductase, molybdate, effects on
         systems 3047.

β-lactam antibiotics, antibacterial activity 5521.

β-lactam antibiotics, antibacterial activity, in vitro 8067.

serum + culture (media) effects on, juveniles, cattle 4824.
                                                                                                                                                                                                                                                                                                       1693
                                                                                                                                                                                                                                                                                         Chlorella,
                                                                                                                                                                                                                                                                                                thidiazuron biodegradation 7524.
                                                                                                                                                                                                                                                                                        thidiazuron biodegradation 7524.

Chlorella vulgaris,
growth mbibitors, antibacterial activity, bacteria 7930,
phosphorus uptake, association, Potamogeton pectinatus, phosphorus excretion 35.

2-Chlorethylphosphonic acid,
effects on Hordeum vulgare leafspot, Helminthosporium sativum 246.

Chlorbextdiine,
antibacterial activity, bacteria contamination, skin cleaning products 1358.
antibacterial activity comparison, N-chloramine compounds, in vitro, in vivo
         disinfection, drinking water 2306.
        compounds, antibacterial activity comparison, chlorhexidine, in vitro, in vivo
  Chloramine-T,
antiviral activity, poliovirus 2 3935.
Chloramphenicol,
         antibacterial activity, bacteria, fish diseases 2204.
antibacterial activity, bacteria, temperature effects on 4674.
antibacterial activity, Escherichia coli, measurement, enumeration spiral plater
                                                                                                                                                                                                                                                                                                       4623
                                                                                                                                                                                                                                                                                               disinfectants, contamination, Serratia marcescens, drug resistance, hospitals
                                                                                                                                                                                                                                                                                              1129.
drug resistance, Pseudomonas aeruginosa, man clinical isolates 2123.
drug resistance, Staphylococcus aureus, clinical isolates 7885.
effects on dental plaque, man 4058.
effects on dental plaque, oral microflora, monkeys 4616.
effects on DNA biosynthesis, Escherichia coli, Bacillus subtilis, Micrococcus lysodeikticus 7914.
         antibacterial activity, glutamic acid excretion, growth, Citrobacter intermedius
        antibacterial activity. Neisseria gonorrhoeae, 3968.
antibacterial activity, Shigella 1361.
antibacterial activity. Streptococcus group B, antibiotic antagonism, ampicillin, treatment, meningitis 2225.
antibiotic prophylaxis, wilt, Verticillium albo-atrum, Lycopersicon esculentum
                                                                                                                                                                                                                                                                                       lysodeikticus 7914.

effects on Streptococcus, lactobacillus, saliva, dental plaque, man 521.

mouthwashes, effects on, dental plaque, gingivitis, bacteria, children 9031.

mouthwashes, inhibition, dental plaque, man 699.

Chlorhexdine discetate,
antibacterial activity, Bacillus megaterium, effects on cell membranes 7922.

Chlorhexdine digluconate,
dosage, effects on, dental plaque, gingivitis, man, clinical trials 3189.

+glycerin, teat dips, prophylaxis, Staphylococcus aureus mastitis, cattle 4054.

mouthwashes, oral hygiene, effects on, gingivitis, dental plaque, man, clinical

rigis 1387.
         antibiotic resistance, clinical isolates, Haemophilus influenzae, Streptococcus
                pneumoniae, Streptococcus group A, Staphylococcus aureus, agar dilution test
6143.
        antibiotic resistance, detection, Haemophilus influenzae, screening, methodology
          antibiotic resistance, Enterobacteriaceae isolates, man, chickens, cattle 3896
       antibiotic resistance, Enteropacteriaceae Isolates, man, Cinckens, catule 3990. antibiotic resistance, Escherichia coli, Aclaignens faecalis, Klebsiella pnetumoniae, soil isolates 9785. antibiotic resistance, Escherichia coli, antimal isolates 2997. antibiotic resistance, Escherichia coli, genes, transcription, phage PICM effects
                                                                                                                                                                                                                                                                                        trials 3188.
Chlorhexidine dinalidixate,
                                                                                                                                                                                                                                                                                       Chlorhezidine dinaldisate, antibacterial activity, patents 7165.
Chlorhezidine diphosphanilate, antibacterial activity, patents 7165.
Chlorhezidine disorbate, antibacterial activity, patents 7165.
Chlorhezidine disorbate, antibacterial activity, patents 7165.
Chlorhezidine gluconate, mouthwashes, alexidine, dental plaque, saliva bacteria, man 1504, mouthwashes, effects on, dental plaque, dental calculus, children 2336.
Chloridazon.
        antibiotic resistance, Haemophilus influenzae, R factors, genetic relationship
        antibiotic resistance, Klebsiella clinical isolates, hospitals patients 7906.
antibiotic resistance, plasmids mediation, transfer, Bacteroides, Escherichia coli 2985.
        antibiotic resistance, Pseudomonas aeruginosa, chloramphenicol acetyltransferase characterization 1278.
     characterization 1278.

antibiotic resistance, Pseudomonas aeruginosa plasmids, plasmid pYMB1 502. antibiotic resistance, Salmonella typhii, isolation, typhiodi fever, man 1256. antibiotic resistance, Salmonella typhimurium clinical isolates 6154. antibiotic resistance, Salmonella typhimurium, plasmids 1255. antibiotic resistance, Staphylococcus aureus 481. antibiotic resistance, Staphylococcus aureus 481. antibiotic resistance, Staphylococcus aureus, man 1261. antibiotic resistance, Streptococcus faecium, R factors 6149. antibiotic resistance, Streptococcus foeumoniae, strains, serotyping 7909. antibiotic sensitivity testing, Mycobacterium, clinical isolates 7143. antibiotic sensitivity testing, Necisseria menigitidis 601. antibiotic sensitivity testing, Pseudomonas aeruginosa, pyocin typing, aeruginocine 7254. antibiotic sensitivity testing, Salmonella, isolates 7989. antibiotic sensitivity testing, Salmonella, isolates 7989. antibiotic sensitivity testing, Shigella dysenteriae, Shigella flexneri, Shigella boydis 5408.
                                                                                                                                                                                                                                                                                        biodegradation, bacteria, tyrosine, biosynthesis, arogenate dehydrogenase 8445. Chloride,
                                                                                                                                                                                                                                                                                       effects on, fungi, cadmium toxicity, aquatic environment 8870.
Chloride peroxidase,
X-ray diffraction, Caldariomyces fumago 6558.
Chlorination,
                                                                                                                                                                                                                                                                                             hlorination, drinking water, bacteria, survival, turbidity contamination, effects on 2312. Kirbychlor, antiviral activity, effects on, hepatitis B surface antigen, antigenicity, morphology 3039, swimming pools, association, nitrogen trichloride, accumulation 4044, swimming pools, hygiene 6387. swimming pools, survival, fungi, bacteria 6388. water, association, cancer patients, disinfection methodology reviews 7285.

Cyclic AMP, binding protein kinase, Mucor rouxii 4908.

effects on, Aspergillus parasiticus, biosynthesis, aflatoxins 1836.

effects on biosynthesis, glycerol, polysaccharides, gluconic acid, musts,

Botrytis cinerea 70. effects on lactic acid, production, Streptococcus lactis 935.
Gluconobacter oxydans, effects on levansucrase biosynthesis 9211.
modulation catabolite activator protein binding double-stranded DNA, Escherichia +musts, Botrytis cinerea fermentation, effects on wine quality 925. receptors proteins, cyclic AMP binding effects on structure, N.M.R., Escherichia coli 3337. Streptomyces griseus, levels, association, streptomycin biosynthesis, phosphate effects on 1404.

Cyclic AMP-binding protein, characterization, purification, Dictyostelium discoideum 7387. isolation, characterization, protein, fragmentation, Escherichia coli 1571. isolation, characterization, rragmentation, Escherichia coli 1571.

Cyclic GMP,
effects on, Aspergillus parasiticus, biosynthesis, aflatoxins 1836.

Cyclic nucleotides,
binding catabolite activator protein, N.M.R., Escherichia coli 8291.

Cyclic peptides,
toxins, purification, amino acid sequence, Helminthosporium carbonum 9334.

3°5°-Cyclic-nucleotide phosphodiesierase,
isolation, characterization, Escherichia coli 1718.

multinle forms. purification, characterization. Neurospora crassa 7447, isolation, characterization, Escherichia coli 1718.
multiple forms, purification, characterization, Neurospora crassa 7447.
yeasts, mechanisms, stereospecificity 8338.
Cyclindrocladium crotalariae,
black rot, sclerotia, borizontal distribution, soil, factors affecting,
incidence, relationship, Arachis hypogaea 1050.
6 Cyclo-octylamino-5,8-quinolluequinome,
antibacterial activity, Mycobacterium tuberculosis, in vitro 506.
3 Cycloolsyamilonyl-pyrrobldine-2,5-doness,
fungicides, synthesis, patents 7004.
Cyclobexamedione,
allosteric inactivation, glucose-1-phosphate adenylyltransferase, role arginine
residues Escherichia coli 5798.
Cyclobeximide,
antibiotic resistance, Candida tropicalis, food isolates 8821. vetoucumaer, antibiotic resistance, Candida tropicalis, food isolates 8821. effects on, cell walls, Blakeslea trispora 8877. effects on, Cephalosporium acremonium, penicillins, cephalosporins, biosynthesis 5524 35/24. resistance, Saccharomyces cerevisiae, cyh2 gene, ribosomal protein L29, hybridization analysis 6126. Cyclobexone oxygenane, mechanisms, bacteria 7579. 3-Cyclobexyl-5,6-trimethyleneuracil, effects on, growth, oxygen upiake, nitrogenase acitivity, association, bioaccumulation, Azotobacter chroococcum 7854. bioaccumulation, Azotobacter chroococcum 7854.
Cycloherylamine,
toxicity, Pythium ultimum, Fusarium oxysporum 5455.
Cyclopertadiene,
derivatives, synthesis, antibacterial activity 7163.
Cyclopertadienoue,
derivatives, synthesis, antibacterial activity 7163.
Cyclopropane,
inactivation alcohol oxidase, mechanisms, Candida boidinii 6584.
Methylococcus capsulatus, oxidation 473.
N-Cycloproyl-acetamidee,
synthesis, antifungal activity, antibacterial activity, patents 6213.
Cyclops, Cyclops, biological control, Bacillus thuringiensis 903. Cycloserine, antibacterial activity, transport, Klebsiella aerogenes, cultural conditions, effects on 1442. effects on 1442.

Cyclosporius,
Cyclosporius,
production, Tolypocaldium inflatum, association, amino acids 6337.

Cylladrocarpon,
infection incidence, roots, pruming, Pinus, Picca 9640.

Cylladrocarpon cylladrodelse var.tenue,
infection, Abies concolor, Abies procera, Abies nordmanniana, hybrids 2010.

Cylladrocarpon destructans,
canker, Pastinaca sativa 1951.
infection, seedlings, Abies alba, soil microorganisms, effects on 2912.
root rot, Fragaria 6894.

Cylladrocarpon destructions,
colonization, Trifolium repens seedlings roots 4526.

Cylladrocarpon didynumu, colonization, Trifolium repens seedlings roots 4526.

Cyliadrocarpon didymum,
damping-off, Finus sylvestris susceptibility, relationship, seeds, color, fatty
acid composition 5310.

Cylindrocarpon lucidum,
cology, replant disease, Malus, seedlings 9470.
root rot, pathogenicity, seedlings, Cocos 3667.

Cylindrocaldium,
selerotia, media (selective) 9122.
selerotia, media (selective) 9122.
selerotia, media (selective), assays, soil isolates 5686.

Cylindrocaldium camellise,
Myristica fragrans, root rot, India, identification 6874.
Cylindrocaldium clavatum,
pathogenicity, Pisum sanvum, etiology 9385.
root rot, crown rot, symptoms, Medicago sativa 9386.
Solanum tuberosum, rot, pathogenicity, soil temperature effects on 7700.

Solanum tuberosum, rot, pathogenicity, soil temperature effects on 7700.

Cytlandrocladium crotalaries, pathogenicity, soil temperature effects on 7700.

Cytlandrocladium crotalaries, pathogenicity, soil temperature effects on 7700.

Cytlandrocladium control of 50.

black rot, Arachis hypogeae, characterization 9387.

black rot, Arachis hypogeae, disease resistance relationship, Meloidogyne hapla, Macroposthonia ornata 7763.

black rot, instology, Arachis hypogeae, inoculum 9376.

black rot, instology, Arachis hypogeae, inoculum 9376.

black rot, transis hypogeae, enhancement, Meloidogyne arenaria 331.

root rot, Arachis hypogeae, enhancement, Meloidogyne arenaria 331.

root rot, crown rot, symptoms, Medicago sativa 9386.

sclerotia germination, Arachis hypogeae rhizosphere, association, black rot 8673.

Cytlandrocladium floridanum, ethylene biosynthesis 4278.

Liriodendron tulipifera root rot 7038.

Cylindrocladium parvum, rot, Rheum rhaponticum 318. Cylindrocladium scoparium, ethylene biosynthesis 4278. infection, Eucalyptus 9634. susceptibility, Rhododendron, Leucothoe catesbaci, Azalea 7741. Cylindrocladium theae, susceptibility, Rhododendron, Leucothoe catesbaci, Azalea 7741. susceptibility, Rhododendron, Leucothoe catesbaei, Azalea 7741.

Cylladrospermum musicola,
insecticides effects on, soil 4564.

Cymbidhum mosaic virus,
infection, Orchidaceae, detection methodology 8640.

Cymbopogoa citratus,
leaf rust, Puccinia nakanishikii, new records, Sri Lanka, characterization 6786.

Cynodon dactylon,
rhizosphere, nitrogen fixation, USA, Texas 443.

Cystathionine β-lyase,
clonine, deletion mutant. Escherichia coil 5734. Cystathionine p-iyase, cloing, deletion mutant, Escherichia coli 5734. Cystathionine p-synthase, purification, characterization, Saccharomyces cerevisiae 5762. Cystein, biosynthesis, Neisseria gonorrhoeae, role thiosulfate reductase 5799. biosynthesis, Neisseria gonoriumene, roccordinatoria, Cysteline, analogs, amino acid, biosynthesis, Pseudomonas 1674.

Laspartic-β-semialdelyde affinity labelling, active sites, aspartate ammonia-lyase, Escherichia coli 4894. decomposition, carbonyl sulfide, detection, paddy fields, soils 5324. effects on, cadmium toxicity, Staphylococcus aureus 1295. residues, 2-bromosectamido-4-nitrophenol alkylation, cytochrome P-450cam, Pseudomonas putida 9164. L-Cysteine, antifungal activity, dermatophyte fungi 6184. potentiation, hydrogen peroxide antibacterial activity, Escherichia coli 9795. Cystic fibrosis, aerosols solutions, Bacillus cereus, contamination 5607 antibiotics treatment, cephalosporins, antibacterial activity, Pseudomonas aeruginosa, Staphylococcus aureus, man 4703. clinical isolates, nonmucoid Pseudomonas aeruginosa, media (selective), use, iron 8.2.5.7.
man, Pseudomonas aeruginosa, antibiotic resistance, β-lactam antibiotics 485.
Pseudomonas aeruginosa, antibacterial activity, aminoglycoside antibiotics,
β-lactam antibiotics, peptide antibiotics, man, in vitro 1379.
Pseudomonas aeruginosa clinical isolates, antibiotic resistance, role, outer membranes proteins 503. Cystine trypticase, media, fermentation, methodology, anaerobic bacteria 8242. media, fermentation, methodology, anaerobic bacteria 8242. Cystobacter fuscus, althiomycin biosynthesis 8969. althiomycin, isolation, identification 6292. Cystoselra balearica, Cystosetra balearica, antimicrobia activity, Bacillus subtilis, Phoma tracheiphila, tobacco mosaic virus, Sicily 1302. Cystosetraceae, extracts, antifungal activity, antibacterial activity, marine environment 1353. extracts, antifungal activity, anausementa activity, alcohols 9760.

Cytochalasins,
Bacillus cereus, resistance, U.V. radiation, heat, alcohols 9760.

Cytochalasins,
biosynthesis, Chaetomium globosum 5957.

Cytochemistry,
Lycopersicon esculentum, Phytophthora capsici infection, aluminum tris-O-ethyl
phosphonic acid, treatment 6997.

phenolics, Nicotina, hypersensitivity, Pseudomonas solanacearum 1099.

Rubus idaeus+Clomus tenuis 3851.

Cytochrome a,
nurification, characterization, submitochondrial particles, yeasts 2546. Cytochrone b, multiple forms, purification, submitochondrial particles, yeasts 2546. Cytochrone b, multiple forms, purification, characterization, localization, inner membranes, mitochondria, yeasts 3709. Cytochrome c, Peass 3705.

Cytochrome c, Paracceus denitrificans, isolation, characterization 2521.

redox potential, Rhodospirillum rubrum, Rhodopseudomonas palustris, Chromatium vinosum 7384.

spectroscopy relationship structure, Rhodospirillum molischianum 9163. spectroscopy relationship structure, Rhodospirillum molischianum 9163. Cytochrome e33, amino acid sequence, Desulfovibrio desulfuricans 3348. Cytochrome C oxidase, Candida tropicalis, activity, hexadecane metaplolism, chemostats 7105, purification, characterization, membranes, Azotobacter vinelandii 2602. purification, characterization, Rhodopseudomonas sphaeriodes 8317. purification, characterization, Rhodopseudomonas sphaeriodes 8317. purification, characterization, submittochondrial particles, yeasts 2546. subunits composition, Neurospora crassa, yeasts 4909. subunits, purification, characterization, Saccharomyces cerevisiae 4210. Thiobacillus ferrooxidans, isolation, characterization 7877. Cytochrome c-549, 554, purification, characterization, Nitrobacter agilis 2633. Cytochrome c-550, purification, characterization, Nitrobacter agilis 2633. purification, characterization, Nitrobacter agilis 2633. Cytochrome c-553, purification, characterization, Nitrobacter agilis 2633.

Cytochrome cdl,
heme environments, Raman spectroscopy, Pseudomonas aeruginosa, Paracoccus
deniurificans 4876. ocentrificans 40/0.

N.M.R., Pseudomonas aeruginosa 9162.

Cytochrome c3,
purification, characterization, Desulfovibrio desulfuricans 6542.

structure, folding, Desulfovibrio vulgaris 4255. structure, Iolding, Desulfovibrio vulgaris 4255.
Cytochrome c4,
X-ray crystallography, Pseudomonas aeruginosa 2623.
Cytochrome c551,
structure, oxidation state effects on, X-ray diffraction, Pseudomonas aeruginosa
5719. Cytochrome c552, purification, characterization, Pseudomonas perfectomarinus 1678.

Cytoplasmic polyhedrosis virus, infection, association, biological control, Insecta, larvae 7503. Cytoplasmic streaming, Hordeum vulgare, role, Mla gene, bost-pathogen interactions, Erysiphe graminis f.sp.hordei, powdery mildew 1891. Cytochrome c553. redox properties, E.S.R., polarography, Desulfovibrio vulgaris 8286.

Cytochrome oxidase, Pseudomona aeruginosa, heme, Raman spectroscopy 8337.
Cytochrome P-448,
purification, characterization, Saccharomyces cerevisiae 5705.
Cytochrome P-450, Cytospora, powdery miscow by Cytospora, canker, Prunus persica, characterization 6847.
Cytospora leucostoma, canker, disease resistance, Prunus persica 2800. Cytochrome P-450,
assays, Saccharomyces cerevisiae 5706.
redox potential relationship spin transitions, Pseudomonas putida 3346.
Salmonella minnesota endotoxins effects on, liver, mice 8555.
Cytochrome P-450cam,
amino acid sequence, Pseudomonas putida 6547.
2-bromoacetamido-4-nitrophenol alkylation cysteine residues, Pseudomonas putida
9164. Cytospora rubescens, canker, dieback, Sorbus 4512. Cytotoxicity, anthracycline, leukemia 1210 cella, effects on macromolecules biosynthesis structure-activity relationships 8081. bleomycin, Saccharomyces cerevisiae, factors affecting 8966. comparison, counter immunoelectrophoresis, Clostridium difficile toxins detection 9164.
Cytochrome peroxidase,
heme derivatives reconstitution, hydrogen peroxide reaction, Saccharomyces
cere visiae 6573.
E.S.R., Pseudomonas 3881.
Cytochrome P450,
reconstitution, kinetics dehydrocamphor epoxidation, Pseudomonas putida 4989.
Cytochromes 3126. Pasteurella haemolytica, cattle leukocytes 4397. α-terthienyl photosensitization, Tagetes, Escherichia coli, Saccharomyces cerevisiae 5482. Cytotoxicity testing, enterotoxins, methodology 5669 Cytochromes. deficient mutant, Candida parapsilosis, isolation, characterization, methodology 9127. Cytotoxins, biosynthesis, Aeromonas hydrophila, Plesiomonas shigelloides, man isolates, Kluyveromyces, spectrophotometry, taxonomy 8294. levels, Pseudomonas aeruginosa, association, neomycin antibiotic resistance 7905. effects on mice 1032. production, dialysis fermenters, design, Pasteurella haemolytica 8557. production, dialysis fermenters, design, Pasteurella naemolyuca 8537.
Cytovarichi,
isolation, characterization, Streptomyces 8078.
Streptomyces, isolation, characterization 3122.
Czechoslovakia,
dairy industry, starter cultures technology, Lactobacillus, Streptococcus,
Pediococcus acidiactici 5039

   Electrodes,
Clostridium butyricum, immobilized cells, formic acid determination 9113.
control, ammonia content, microbiology media 5618.
electric currents, antibacterial activity 1317.
electric currents, antibacterial activity, bone, patents 7159.
electric currents, bactericidal activity, bone, patents 7159.
electric currents, bactericidal activity, bone, patents 7159.
electroic currents, bactericidal activity, bone, patents 7159.
electroic properties, intrifying bacteria, urea detection 6507.
use, Pseudomonas, nitriotriacetic acid biodegradation 1509.
Electrotyte balance,
toxins, symptoms inductions, milo disease, Periconia circinata, sorghum 5990.
Electrotomagnetic radiation,
+ bacteria culture, methodology, models 7342.
effects on, Saccharomyces cerevisiae, fermentation 2640.
Electron microscopy,
ATP, ADP binding formyletrahydrofolate synthetase, conformational analysis,
Clostridium thermoaceticum 8329.
Bacillus polymyxa, growth, polymyxins, biosynthesis 9864
bacteria, embedding, cells, cell culture 4854.
bean yellow mosaic virus infection, Gibasis geniculata, symptoms 9517.
beazyl penicullin, effects on, Neisseria gonorrhoeae, ultrastructure 7160.
Bottyodiplodia theobromae infection, Dioscorea paniculata, ultrastructure 7504.
citrate (pro-35)-lyase, comparison, Clostridium sphenoides, Rhodopseudomonas gelatinosa, Streptococcus lactis subsp. diacetylactis 7450.
detection, affalfa mosaic virus, bean yellow mosaic virus, Solanum laciniatum 2861.
                       Clostridium butyricum, immobilized cells, formic acid determination 9113.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Elongation factor 1,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              purification, characterization, Saccharomyces cerevisiae 3365.
Elongation factor 3,
purification, characterization, Saccharomyces cerevisiae 3363.
Elsinee ampelina,
resistance, timeritance, genetic analysis, Vitis vinifera 6955.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Resistance, mineriance, gorace and the Embedding, 
bacteria, cells, cell culture, electron microscopy 4854, 
glycol methacrylate, mycorrhizas, microscopy, methodology 2493. 
Embilica officinalis, 
fruit rot, Nigrospora sphaerica, new records 9455.
                                   2861.
               detection, rotavirus feces, children 816.2.

detection, rotavirus, man, in vitro 2379.

detection, rotavirus, man, in vitro 2379.

diagnosis, cyconegalovirus congenital infection, neonates, man 717.

diagnosis, vycoregalovirus congenital infection, neonates, man 717.

diagnosis, vycoregalovirus congenital infection, neonates, man 717.

diagnosis, visuses, infection, cartle, man, pigs 2368.

diagnosis, vyellow fever virus, Chikungunya virus, Riff Valley Fever Virus, Ebola virus, Marburg disease virus, Lassa fever virus, in viruo 2380.

Erwinia amylovora, polysaccharides, pathogenesis, xylem, Malus pumila 1899.

flitipin sterols complex, rust, Uromyces appendiculatus var appendiculatus, Phaseolus vulgaris, Puccinica coronata var, avenae, Avena sativa 8586.

gram-negative bacteria, endeotoxius, cotton fibers 2743.

methodology, bacteria, nucleoids 9956.

microbiology applications, reviews 8153.

mycoplasma-like organisms infection, Vicia faba 9392.

Neisseria meniguituds, benzylpenicillin effects on morphology 4719.

Phytophthora megasperma var sojae, Glycine max, disease resistance, races, age, effects on 3267.

Polytrichum commune, fungi, interaction 5223.

potato leaf 701 virus, electric currents, films, use, trapping, methodology 8194.
                       detection rotavirus feces, children 8162

Endodeoxyribonuclease EcoRi,
subunits, binding, cleavage, palindromes double-stranded DNA, kinetics,
Escherichia coli 8361.

Endodeoxyribonuclease V,
purification, characterization, phage T4 6564.
               proteins, enzymes, Rhizoctonia solani isolates, sheath blight, Oryza sativa 9440. rotavirus, detection 710.
tosevirus, estection /10.
serum levels, osteomyelitis, antibody response, Staphylococcus aureus, man 9103.
Vibrio cholerne, Escherichia coli, enterotoxins, subunits, hybrids 1849.
violanycin B1, Stephomyces violaceus, binding DNA 1432.
Electrophoretic mobility,
cadang-cadang disease viroli RNA, detection, Cocos nucifera 3698.
Elements.
Desilitation of the control of the control
```

distribution. Bacillus coagulans spores, electron probe analysis 1540.

Endogone,	Enterobacter,
spores, rhizosphere microorganisms, xerophytes, occurrence, India 419.	alafosfalin, antibacterial activity 4737.
Endometrium.	antibacterial activity, antibiotic HR 756 1449. antibacterial activity, cefotaxime 1386.
bacteria, fungi, culture, methodology, horses 2390.	antibacterial activity, cefotaxime, cephalosporin antibiotics 4713.
Endomycopsis bispora,	antibacterial activity, certizoxime, cefazolin 587.
exo-1,4-α-D-glucosidase, immobilized enzymes 5735.	antibacterial activity, cenhalosporins, penicillinase stability 8932.
Endomycopsis capsularis,	antibacterial activity, cephalosporins, penicillinase stability 8932. antibiotics activity, 7-hydroxytropolon 5492.
morphogenesis, mitochondria, protein biosynthesis, chloramphenicol, antimycin A, hydroxamate, effects on 2235.	clinical isolates, antibacterial activity, certazidime 4001.
	clinical isolates, antibacterial activity, temoculin 8939.
Endoplasmic reticulum, vesicles, isolation, Candida tropicalis, methodology 832.	clinical isolates, antibiotic resistance, ceftazidime, antibacterial activity
Endoscopes,	comparison cephalosporins 4690.
disinfection, British Isles 684.	clinical isolates, capetimycin, antibacterial activity 7147.
Endoscopy,	clinical isolates, cefoperazone, antibiotic sensitivity testing 8841.
equipment, disinfection, antibacterial activity, Dettox ABC 7926.	clinical isolates, ceftazidime, antibacterial activity 4692.
Endothall.	contamination, buttermilk 2696.
effects on fruit rot, Rhizoctonia solani, Cucumis sativa 1083.	contamination, swelling agents, dry heat disinfection 701. cyanide drug resistance, β-cyano-Lalanine biosynthesis 2525.
Endothia,	food isolates, antibiotic resistance 1270.
carboxyl proteinase, substrate specificity, kinetics 8334.	incidence, thermometers, electronic equipment, hospitals 693.
Endothia parasitica,	isolation, β-D-mannosidase 885.
blight, biological control, Castanea dentata 2908.	plasmids mediation, antihiotic resistance, aminoplycoside antihiotics 1253.
blight, biological control, peat microflora, grafts, Castanea dentata 3814. blight, vectors, Aves, Mammalia, Castanea dentata 3810.	rhizosphere microorganisms, pathogenicity, Beta vulgaris crops, identification,
blight virulence biological control virus-like particles. Castanea dentata	characterization 5205.
blight, vectors, Aves, Manimana, Castanea demata 3010. blight, virulence, biological control, virus-like particles, Castanea dentata 2913.	sewage isolates, antibiotic resistance 8830.
blight, wounding, Castanea dentata 3813.	symbiosis, spores, Glomus macrocarpus var.macrocarpus 2944.
isolates, Castanea dentata, virulence, cultural characteristics 9632.	urinary tract infection, man, antibacterial activity, cinoxacin, DNA biosynthesis
milk-clotting enzymes, identification, association, antisera 7457.	inhibition 7134.
milk-clotting enzymes, proteolysis, casein 7446.	Enterobacter aerogenes,
pathology, Castanea 389.	antibiotic resistance, β-lactam antibiotics, penicillinase, role 6146.
rennet, purification, affinity chromatography 5/20.	antibiotic resistance, cephalosporins inhibition penicillinase 7882.
virulence deficiency, transmission, role, viruses double-stranded RNA 2906.	cephalosporins antibacterial activity, patents 7222.
virulence, genetic analysis, Castanea dentata, blight, canker 1085.	chorismate mutase, inhibition 5748.
Endotoxemia,	contamination, milking machines, cleaning systems, sanitizers 4791.
Clostridium perfringens, enterotoxins, purification, characterization, man 1847.	contamination, spices 1781. fermentation, mabi, alcoholic beverages 2644.
Limulus lysate test 9342.	histamine production, spoilage, Katsuwonus pelamis 8476.
Endotoxins,	immobilized cells, adenine arabinoside, production 5721.
assays, serum, man, erythrocytes, Limulus polyphemus 1846. bacteria, assays, Limulus lysate test, automated methods 1580.	methionine biosynthesis, precursors, 5-methylthioribose 8298.
Escherichia coli, effects on arachidonic acid release, thromboxane B ₂	Enterobacter agglomerans,
production, platelets, man 2742.	contamination, spices 1781.
Escherichia coli, effects on fatty-acid synthetase lipoproteins 7609.	Enterobacter cloacae,
Escherichia coli, Limulus polyphemus amebocytes, Limulus lysate test, effects on	antihacterial activity, cefotiam 5518.
viscosity 5130.	antibiotic resistance, β-lactam antibiotics 9776. antibiotic resistance, β-lactam antibiotics, penicillinase, role 6146.
gram-negative bacteria, cotton fibers, electron microscopy 2743.	antibiotic resistance, β-lactam antibiotics, penicillinase, role 6146.
gram-negative bacteria, thermophilic fungi, composting, sewage sludge,	antibiotic resistance, cefotaxime 4714.
occupational exposure, man 2300. interaction lead acetate, lipid peroxidation, mice 8551.	antibiotic resistance, cefotaxime, ceftriaxone, role, cephalosporinases, binding
interaction lead acetate, lipid peroxidation, mice 8551.	7117.
Limulus Ivsate test, correlation, pyrogens tests, Escherichia coli 207.	antibiotic resistance, cephalosporins inhibition penicillinase 7882.
Limulus lysate test detection, quality control, man serum albumin 7211. Limulus lysate test, pyrogenicity 4405.	antibiotic T-1551, antibacterial activity 8915.
Limitus lysate test, pyrogenicity 4405.	cefamandole antibiotic resistance, association penicillinase 9765.
limulus-lysate test, clinical aspects, characterization 6504. Neisseria meningitidis, benzylpenicillin effects on morphology, electron	ceftriaxone antibacterial activity 6242.
тісгозсору 4719.	cephalosporins antibacterial activity, patents 7222. clinical isolates, antibacterial activity, ceftazidime 4695.
toxicity, Bacillus thuringiensis, Insecta 6737.	clinical isolates, trimethoprim drug resistance 8785.
Yersinia enterocolitica, levels, cell division, temperature effects on 8561.	contamination spices 1781
Energetics,	contamination, spices 1781. R factors, cephalosporins antibiotic resistance, membrane permeability 5401.
nitrogen fixation, books, conferences 8274.	fermentation, mabi, alcoholic beverages 2644.
Energy balance.	growth, beef, pH effects, lactic acid, anaerobic conditions, effects on 1787.
wastewater treatment, nitrification 6367.	nitrogen fixation, enumeration, rhizosphere, Graminae 2047.
Energy conservation,	penicillinase activity, inhibitors, characterization 5776.
milk pasteurization, dairy industry 175.	penicillinase inactivation ceftazidime, kinetics 4582.
Energy flow,	penicillinase, inhibition, clavulanic acid 8349.
nutrient dynamics, soil, trophic relationships, microorganisms 7053.	purine-nucleoside phosphorylase, characterization 5779.
Energy resources,	xanthine oxidase, purification, characterization 2573.
Finland, biomass conversion, cellulolytic microorganisms, enzymes	Enterobacteriaceae,
characterization 6424.	acid production, media (culture) 8263.
gas production, microorganisms, sewage treatment, USA, Colorado 5580. U.S.A., microorganisms, biomass 7870.	adherence, sutures 1496.
microorganisms biomass, conversion, Brazil, characterization 6422.	antibacterial activity, amikacin, β-lactam antibiotics, characterization 7144,
microorganisms biomass, conversion, South Africa, characterization 6421.	
microorganisms biomass, conversion, Switzerland, characterization 6435.	antibacterial activity, antibiotic BRL 17421, in vitro, in vivo, man 1422. antibacterial activity, cefmenoximine 5523.
microorganisms, gas production, combustion, USA, New York 6120.	antibacterial activity, cefodizime 5522.
USA, ethanol production, association, biomass 7871.	antibacterial activity, cefonerazone 8920
Energy value.	antibacterial activity, cefoperazone 8920. antibacterial activity, cefoperazone, cefotiam 599.
hydrocarbons, fermentation 4574. Enfermedad de Rio IV,	antibacterial activity, cefotaxime 3072.
Enfermedad de Rio IV,	antibacterial activity, cefotaxime, cephalosporin antibiotics 4713,
pathology, Zea mays, Argentina 236.	antibacterial activity, cefotaxime, cephalosporin antibiotics 4713. antibacterial activity, cefotaxime, cephalothin resistance 7221.
Enflurane,	antibacterial activity, cefoxitin antibiotic synergism antibiotics 1374
effects on measles virus replication, cell culture 2174.	antibacterial activity, ceftazidime 4689. antibacterial activity, ceftazidime, comparison, cephalothin, cefotaxime,
isomers, effects on measles virus replication, cell culture 2174. Enneapogon persicus,	anusacterial activity, certazidime, comparison, cephalothin, cefotaxime,
infection, Puccinia uzbekistana sp.nov., USSR 9528.	moxalactam, in vitro 13/2.
Enoate reductase,	antibacterial activity, ceftizoxime, cefazolin 587. antibacterial activity, cephalosporins 1388.
mechanisms, kinetics, Clostridium 8392.	antibacterial activity, cephalosporins 1388.
Enol-4-hydroxyphenylpyruvate,	antibacterial activity, cephalosporins, penicillinase stability 8932.
4-hydroxyphenylpyruvate dioxygenase inhibition, kinetics, Pseudomonas 7419.	antibacterial activity, fosmidomycin, synergism, β-lactam antibiotics, gentamicin, trimethoprim 8914.
Enolase,	antibacterial activity, N-formimidoyl thienamycin 1446.
fluoride binding, yeasts 8374.	antibacterial activity, penicillins antibiotic antagonism cephalosporins 5407.
fluoride inhibition, yeasts 7411.	antibacterial activity, temocillin 8029.
tetranitromethane inactivation, yeasts 6590.	antibacterial activity, thiolactomycin 8971.
Enteric Dacteria,	antibiotic MK0787, antibacterial activity, B-lactam antibiotics 6282.
detection, India ink immunoreaction, man, Nigeria 2461.	antibiode resistance, ampicillin 4613.

enumeration, frozen food, filtration 1790.
enumeration, identification, meat products 7579.
enumeration identification, meat products 7579.
enumeration physicochemical properties, abattoris by-products 158.
enumeration, physicochemical properties, abattoris by-products 158.
enumeration, shellfish, methodology 1582.
enzymes, biosynthesis, continuous culture, kinetics, growth rate 8387.
erythromycin antibiotic resistance, mutation, rRNA operons 9763.
essential oils, antimicrobial activity 6209.
esterase, membranes localization, characterization 4260.
experimental infection, hapsoplobine effects on, rats 3026.
experimental infection rats, antibacterial activity, cefmetazole comparison
```

morphology, cefmenoxime, antibacterial activity 2221.

Escherichia coli, (continued) Escherichia coli, (continued) morphology, cefmenoxime, effects on 3071 murein, characterization 8405. scherichia coli, (comunen) derivatives inhibition 8327. ribonucleotide reductase, Raman spectroscopy, iron, centers 5760. ribosomal protein L29, ribosomal protein L30, tertiary structure, hydrodynamics, ultracentrifugation, C.D. 8287. mureu, characterization 6-905.

mutagenicity testing, prophages induction, spices, radiation, blood, rats 1516.
mutagenicity testing, 1,1,2,3-tetrachloro-2-propene 2383.
mutants, antibiotic resistance, negamycin 8609binants 2430.
mutants, detergents sensitivity, sensitivity-ticked properties and properties of the pro ultracentrifugation, C.D. 8287.
rifampicin-trimethoprim antibacterial activity 1414.
rifamycin binding proteins, isolation, affinity chromatography 2506.
RNA polymerase aggregates, structure, X-ray scattering 8340.
RNA polymerase, glutamine synthetase, purification 6583.
RNA polymerase, mechanisms, C.D. rifampicin binding 5791.
RNA polymerase, phage T7 DNA, mRNA complex, stability 5795.
RNA polymerase, trypsin digestion 7453.
rpsA gene, DNA nucleotide sequence 7392.
screening, antitumor antibiotics 2469.
sensitivity, colicins, ColE plasmid, characterization, antibacterial activity 2189. 1699.
mutants, phenylalanine biosynthesis, continuous culture 7382.
mutants, R factors Rms201, maintenance, antibiotic resistance ampicillin 2093.
mutants, serine effects on drugs activity 7933.
mutants, sterobnowich resistance, role, gene Irs, R factor R1 7874.
N.M.R., pyruvate dehydrogenase, cross-linking 7464.
nitrate reductase, purification, cyanide, ferricyanide effects on activity 6568.
nitrate reductase, subunits, purification, characterization 6578.
nitrite reductase (NAD(PH), kinetics 7438.
nutrient sources, 4-amino-5-hydroxymethylpyrimidine, role thiamine biosynthesis 4283. 2189.

L-serine O-sulfate inactivation glutamate decarboxylase, N.M.R. 8380. serotyping, relationship, pathogenicity 1567. sewage isolates, antibiotic resistance 8830. showdomycin antibiotic resistance 8830. showdomycin antibiotic resistance, characterization 3888. sodium hypochlorite, antibacterial activity 3922. soil isolates, chloramphenicol antibiotic resistance 9785. SOS repair, assays, use mutagenicity testing 9963. spheroplasts, identification, indirect fluorescent antibody test 1632. staining, neutral red, markers, phagocytosis, Dictyostelium discoideum 3326. strains, ampicillin, antibacterial activity 8038. Streptococcus, indicator species, survival, freshwater environment, temperature effects 2308. nutrient sources, 4-amno-3-nydroxymethylpyrimaine, role manine biosynus 4283.

ornithine carbamoyltransferase, reaction phenylglyoxal, comparison aspartate carbamoyltransferase 4226.

outer membranes, enterobactin receptors, purification, characterization 8297.

ovanosine, antibacterial activity, 8963.

oxanosine, antibacterial activity, 8963.

proteolysis, N.M.R. 8335.

penicillin amidase, kinetics, mechanisms, mathematical models 4196.

penicillin amidase, kinetics, mechanisms, mathematical models 4196.

penicillins aeroperoplass, triethyltin chloride, tripropyltin chloride, effects on 3911.

penicillinainding protein peptidoglycan synthetase isoenzymes, purification, characterization 6595.

penicillinase activity, inhibitors, characterization 5776.

penicillinase, chemical modification, tyrosine residues 5725.

penicillinase, inactivation, ceftazidime, kinetics 4582.

penicillinase, inhibition, olivanic acid derivatives, plasmids 5746.

pH, intracellular levels, homeostasis, measurement, N.M.R. 2451.

phenanthrene, phenanthroline, antibacterial activity, structure-activity 4283 effects 2308. streptomycin effects on virulence 7990. streptomycin effects on virulence 7990. streptomigrin bactericidal activity, iron synergism 7927. streptomigrin bactericidal activity, iron synergism 7927. succinate delhydrogenase, detergents effects on 2169. succinate delhydrogenase, doublitization, characterization 8357. sugars osazones, antibacterial activity 7929. surface water isolates, antibiotic resistance, drug resistance heavy metals 8835. survival, brackish water, sediments 6384. survival, choses production, milk ultrafiltration 5045. survival, sediments, indicator species, microbial pollution 9002. survival, solid (podzolic), temperature effects on 9693. susceptibility, leukocytes (polymorphonuclear), enhancement, chloramphenicol, in vitro 617. penicillinase, inhibition, olivanic acid derivatives, plasmids 3746.
phl, intracellular levels, homeostasis, measurement, N.M.R. 2451.
phenanthrene, phenantiroline, antibacterial activity, structure-activity relationships 6165.
phenol, disinfectants, flow calorimetry, bioassays 4155.
phenylalanyl-tRNA synthetase, affinity labelling phenylalanine active sites 7433.
phosphatase, genes, amino acid sequence 489.
phosphocarrier protein, N.M.R. 5708.
phosphocarrier protein, N.M.R. 5708.
phosphocarrier protein, N.M.R. 5708.
phosphocarrier protein, Protein phosphotransferase, magnesium, manganese effects on dimerization, phosphorylation 5781.
phosphocarrier protein, Protein phosphotransferase, mechanisms phosphocarrier protein phosphotransferase, and phosphorylation 5782.
piga animal isolates, antibiotic resistance, polymyxins 4581.
plasmids, antibiotic resistance, amilacin derivatives 7116.
plasmids, antibiotic tolerance, amilacin derivatives 7116.
plasmids, antibiotic tolerance, amilacin derivatives 7116.
plasmids, characterization, isoelectric focusing 9064.
plasmids, plantitis B surface antigen gene expression, vaccines, antibody response, rabbits 8983.
plasmids, phantitis B surface antigen gene expression, vaccines, antibody response, rabbits 8983. tetracycline antibiotic resistance selection, use plasmid pBR322, plasmid pDR42 8805. 8805.

tetrahydrofolate dehydrogenase, kinetics, mechanisms 8400.

tetrahydrofolate dehydrogenase, trimethoprim analogs inhibition tetrahydrofolate dehydrogenase, antibacterial activity 9800.

tetrahydrocomycin binding ribosomes, antibacterial activity 8961.

thermal sinjury, recovery, media (enrichment), methodology 4149.

thermal sinjury necrovery, media tenrichment), methodology 4169.

thermal sinjury in enrichment production 760-76.

thymidine incorporation, B-lactam antibiotics effects on 3966.

toluidine blue O, PH, light, effects on, antibacterial activity 7942.

toxigenicity, incidence, man, Philippines, antibiotics effects on 584.

transfer, R factors, food 6548.

trimethoprim, sulphonamides, effects on, hemagglutination, adherence, ultrastructure 7132. ultrastructure 7132. tryptophan synthase α -subunit, guanidine hydrochloride induction unfolding 5812. S812.
vryptophan synthase β-subunit, renaturation kinetics 5796.
typing, urinary tract isolates 802.
VV- radiation, factors affecting radioresistance 7114.
U.V. radiation photoprotection, role rel gene, 4-thiouridine 5425.
U.V. radiation photoprotection, role rel gene, 4-thiouridine 5425.
U.V. radiation photoprotection, role rel gene, 4-thiouridine 5425.
uridine phosphorylase, thymidine phosphorylase, purine-nucleoside phosphorylase, mechanisms 3761. response, rabbits 8985.

plasmids, maintenance, continuous culture, effects on, growth 1575.

plasmids mediation, antibiotic resistance, mainoglycoside antibiotics 1253.

plasmids mediation antibiotic resistance, transfer, Bacteroides 2985.

plasmids, Ractors, multiple antibiotic resistance, transfer, Bacteroides 2985.

plasmids, Ractors, role, drug resistance, antidixic acid 1259.

plasmids, Ractors, role, drug resistance, nalidixic acid 1259.

plasmids transformation, cold shock methodology 9936.

polyrbosomes, structure, streptomycin effects on 1402.

preplenate dehydratase, self-association 2597.

proline biosynthesis, x-plutamyl phosphate reductase 4.

protein biosynthesis, inhibition, rifampicin 1415.

protein biosynthesis, inhibition, rifampicin 1415.

protein biosynthesis, inhibition, rifampicin 1415.

protein biosynthesis, tertacycline, minocycline, effects on 1420.

proteins, proline levels, genetic engineering 7400.

Pseudomonas aeruginosa gendamicin antibiotic resistance plasmids, expression 7901.

purification, characterization, glycerol-3-phosphate dehydrogenase 4265. urinary tract infection isolates, antibacterial activity, antibiotic MK-0366, in vitro 7138.

urinary tract infection, man, antibacterial activity, cinoxacin, DNA biosynthesis ministro 1714.

urinary tract infection serotypes, biosynthesis, toxins, hemolysins 1031.

use, detection methodology, β-lactam antibiotics hydrolysis, penicillinar

2339. use, suspension culture assays, detection DNA damage, mutagens 1556. uvr A gene proteins, purification, characterization 7388. vesicles, methodology, assays, solutes uptake, tetraphenylphosphonium 6479. viability, antibacterial activity, β-lactam antibiotics, role, adherence, viability, antibacterial activity, β-lactam antibiotics, role, adherence, surfaces 2206.

Vibito cholerae, enterotoxins, subunits, hybrids, electrophoresis 1849. water pollution, swimming relationship gastroenteritis, man 4776. water quality, reservoirs, streams 2316. xylose-binding protein, purification, characterization 7389. zine, induction cooperativity, ornithine carbamoyltransferase 7413. Escherichia intermedia, tyrosine phenol-lyase, activity, stereospecificity 4932. Escherichicae, identification, association, bemaeglutining toping 2480. purification, characterization, glyccrol-3-phosphate dehydrogenase 4265. purification, characterization, penicillin amidase 7435. purification, characterization, prephenate dehydrogenase, mutants, plasmids transformation 8305.

purification, characterization, proteinase multiple forms, plasma membranes 7422.

pytelonephritis, experimental infection, methodology, animal models, man 8256.

pyridines, antibacterial activity, synthesis 1293.

pyrroles derivatives, synthesis, antibacterial activity 510.

pyrouste dehydrogenase (lipoamide), purification, characterization, comparison

Salmonella typhimurium 8322.

pytevate dehydrogenase multienzyme complexes, mechanisms, role dihydrolipoamide

acetyltransferase lipoic acid residues 8344.

pyruvate dehydrogenase multienzyme complexes, role dihydrolipoamide

acetyltransferase lipoic acid residues mechanisms 8341.

pytevate oxidase, interaction, thiamin pyrophosphate 5750.

radioactive labelling methodology, association, charcoal adsorption 8213.

radioresistance, sewage sludge extracts, effects on 2999.

recA gene protein, purification 8300.

recA gene proteins, proteolysis bagae & repressors, stimulation DNA-binding

protein 3352.

recovery, surfaces, antibacterial activity Thran 5800. transformation 8305 identification, association, hemagglutinins typing 2480. hydrolysis, anaerobic bacteria, measuring techniques 2473. Esophagus, carcinoma, association, Fusarium verticillioides mycotoxins contamination corn, man 4382. Essential oils, ssertuau ous; antifungal activity 4867. antimicrobial activity, bacteria, fungi 6209. plants, antibacterial activity, antifungal activity, screening 3023. Vateria indica, antifungal activity, antibacterial activity 3952. Vateria indica, antifungal activity, antibacterial activity 3952. Esterase, Brettanomyces bruxellensis, purification, activity, role, flavor constituents biosynthesis, beer fermentation 3445. Collectorichum gloessporioides, enzymes polymorphism, acid phosphatase, aminopeptidase 4931. concentration, yeasts, wine 8433. Fusarium solani f.sp.pisi, effects on, Vitis vinifera cutin membrane permeability 8358. protein 3532.

recovery, surfaces, antibacterial activity Thran 5800.
recovery, surfaces, antibacterial activity, Thran 6168.
recovery, surfaces, antibacterial activity, Thran 6168.
regrowth, antibacterial activity, ampicillin, azlocillin 9851.

thanol, (continued) (culture), sodium chloride effects on 4288. production, Saccharomyces fragi, whey fermenters 5870. production, Saccharomyces oviformis, Saccharium officiale fermentation 50. production, Saccharomyces, sugar fermentation, yield 6647. production, temperature, association, growth inhibition, temperature effects on 7408.
                                                                                                                                                                                                                                              production, USA, energy resources, association, biomass 7871. production, use, ammonia detoxification corn, aflatoxin B1 4380. production, vacuum fermentation, use, Zymomonas mobilis 3447.
                                                                                                                                                                                                                                               production, yeasts 5864.
                                                                                                                                                                                                                                             production, yeasts, agricultural wastes, pretreatment, enzymes, acids hydrolysis,
reviews 6644.
                                                                                                                                                                                                                                              production, yeasts, crop residues, cost-benefit analysis 6645.
                                                                                                                                                                                                                                             production, yesass, cutry resultant, consequent analysis 6043, production, yesasts, extraction fermentation 5889, production, yesasts, efermenters 7513, production, yesats, fermenters 7513, production, yesats, tubers, Helianthus tuberosus 6651, Saccharomyces cerevisiae, fermentation, solvents extraction, continuous culture 1747.
                                                                                                                                                                                                                                              Saccharomyces cerevisiae, production, association, Saccharum officinale refining
                                                                                                                                                                                                                                             Saccharomyces cerevisiae, production, glucose fermentation 6648.
Saccharomyces cerevisiae, production, glycerol by-products biosynthesis 4289.
Saccharomyces cerevisiae, production, sugar beets fermentation, pretreatment
                                                                                                                                                                                                                                             Saccharomyces cerevisiae, production, sugars, mathematical models 920.
straw fermentation, Saccharomyces uvarum, Pachysolen tannophilus 9244.
toxicity, Saccharomyces cerevisiae fermentation, rumen fluids, feeds, cattle
                                                                                                                                                                                                                                                   3514
                                                                                                                                                                                                                                             Zea mays silage, effects on fermentation 5071.

Zymomonas mobilis, Saccharomyces cerevisiae, production, molasses fermentation
                                                                                                                                                                                                                                                    8429
                                                                                                                                                                                                                                              Zymomonas mobilis, tolerance, environmental conditions effects on 5417.
                                                                                                                                                                                                                                       Ethidium bromide, effects on, Bacillus subtilis, Bacillus megaterium, spores, viability, heat
                                                                                                                                                                                                                                                  resistance 2159
                                                                                                                                                                                                                                        Ethionamide,

    + rifamycin+aminoglycoside antibiotics, antibiotic sensitivity testing.
    Mycobacterium 4735.

                                                                                                                                                                                                                                       Ethioniae, control, scab, Solanum tuberosum, Streptomyces scabies 339.

Ethiopia, livestrek, Salmonella, incidence 2666.
                                                                                                                                                                                                                                       Ethnimos, antifunga activity, Erysiphe graminis, powdery mildew, adenosine deaminase activity, Hordeuro vulgare 2780.

4'-Ethoxy-2'-Aydroxy-4,6'-dimethoxychalcone, antiviral activity, rhinovirus 9812.
                                                                                                                                                                                                                                              effects on mycorrhizas development, Medicago sativa, Triticum vulgare 414.
                                                                                                                                                                                                                                      Ethyl acetate,
Saccharomyces rouxii, biosynthesis 909.

Ethyl hexanoate,
concentration, yeasts, wine 8433.

Ethyl methanesulfonate,
mutagens, effects on Avena sativa disease resistance, crown rust, Puccinia
coronata 2565.

Ethyl octanoate,
concentration, yeasts, wine 8433.

2-Ethyl-5-(3-Indoiyl)oxazole,
Streptomyces cinnamomeus, structure 5858.
                                                                                                                                                                                                                                            Streptomyces cinnamomeus, structure 5858.
Streptomyces cinnamonensis, structure 8418.
                                                                                                                                                                                                                                            unjetue, apples accumulation, storage conditions, potassium permanganate effects on 4365. 
biosynthesis. Cylindrocladium floridanum, Cylindrocladium scoparium 4278. 
biosynthesis, Nicotiana tabacum, association, tobacco mosaic virus infection, 
role, methionine 3740.
                                                                                                                                                                                                                                      role, methionine 3740, biosynthesis, Nicotiana tahacum leaves, hypersensitive response, infection, tobacco mosaic virus 2860. biosynthesis, Pseudomonas putida, Pseudomonas fluorescens, soil, in vitro, aeration effects on 4527. biosynthesis, respiration, soil microorganisms, measuring techniques 5342. Rhizoctonia solani, biosynthesis, role pathogenicity 6634. Ethylene dibromide, effects on Verticullium dahliae sclerotia 450. fumigation, Citrus, air dispersal 5281. Ethylene gyool,
                                                                                                                                                                                                                                      Ethylene glycol,
Mycobacterium metabolism 958.
Ethylene oxide,
sterilization, bacteria indicators, surveys 7208.
sterilization, monitoring, indicators, Bacillus subtilis 7205.
                                                                                                                                                                                                                                           disease control, Phytophthora parasitica, root rot, crown rot, Sinningia speciosa
                                                                                                                                                                                                                                                  7010
                                                                                                                                                                                                                                      Etruscomycin.
                                                                                                                                                                                                                                      antifungal activity, Candida albicans, protection, cholesterol, ergosterol 7250. 
Eubacterium, antibacterial activity, sulbenicillin 3083.
                                                                                                                                                                                                                                    antibacterial activity, sulbenicillin 3083.

Eubacterium serofacleas,
78-hydroxysteroid dehydrogenase, ursodeoxycholic acid, formation,
association, mixed culture, Escherichia coli, Bacteroides fragilis 9205.

Eubacterium lentum,
transformation, cholic acid, chenodeoxycholic acid 4988.

Eubacterium limosum,
biosynthesis, N.N-dimethylglycine, acetic acid, butyric acid, use, betaine 2522.
Lachnospira multiparus, mixed culture, pectin, metabolism, hydrogen transfer
              action, Kluyveromyces fragilis, fermentation, tubers, Helianthus tuberosus
99-30. Troulopsis colliculosa, association, inulin fermentation 8770. Troulopsis colliculosa, association, inulin fermentation 8770. Troulopsis colliculosa, association, inulin fermentation 8770. Fungicides, (continued)

Fusarium, (continued) Fungicides, (continued) rot, Allium cepa 5277. tolerance, Trichoderma harzianum, use, disease control, white rot, Allium cepa usarium, (continued)
composition, Lupinus luteus 405.
Zea mays plant diseases, identification, Nigeria 9403.
a-zearalenol, mycotoxins, characterization 186.
+ zearalenone, contamination, corn, detoxification, fermentation, Saccharomyces 9509
Treatment, Glycine max, effects on Lepidoptera biological control, Nomuraea rileyi 362.
Triazoles, Control, scab, Malus pumila, Venturia inaequalis 365.
Triazoles, Control, scab, Malus pumila, Venturia inaequalis 365.
Triazoles, Pisum sativum role Erysiphe pisi haustoria 5978.
uprake, Pisum sativum role Erysiphe pisi haustoria 5978.
use, disease control, Phytophothora infestans late blight, Solanum tuberosum 8699.
use, prevention, kiwifruit post-harvest decay, fungi 8681.
Venturia inaequalis, scab, Malus pumila, control, factoria affecting 1132.
volatiles, disease control, powdery mildew, Sphaerotheca pannosa var.rosae, Rosa 9602. zearalenone, food contamination cattle, Zea mays, mycotoxicosis 5109. Fusarium acuminatum, infection, Vicia faba 2763. monoliformin production, characterization, South Africa 5110. root rot, interaction, wilt, Fusarium oxysporum f.sp.medicaginis, Medicago sativa 3134. Toot rot, Medicago sativa, temperature effects on 8609. soft rot, post-harvest decay, papaya 2874. survival, soil amendments, Difolatan, factors affecting 1234. Fusarium arthrosporfoides, microflora, grain 4466. 9602 Fungistasis, volatiles, biosynthesis, thermophilic fungi, competition, straw composting 4758 microflora, grain 4466.
Fusarium avenaceum,
microflora, grain 4466.
rot oti, Fragaria 6894.
Fusarium concolor,
monoliformin production, characterization, South Africa 5110.
Fusarium concolor,
monoliformin production, characterization, South Africa 5110.
Fusarium culturium,
antifungal activity, vignafuran derivatives 3927.
biosynthesis, vomitoxia, zearalenone, antifungal activity, Penicillium digitatum,
Mucor ramanianans, Saccharonyees bayanus 3561.
corn propionic acid preservation, antifungal activity 4359.
mycotoxias biosynthesis, radiation2 heat, effects on 526.
organic acids, effects on Hordeum vulgare rosts on 526.
organic acids, effects on Hordeum vulgare growth, physiology 239.
organic acids, effects on Hordeum vulgare growth, physiology 239.
Totel ignins subernis, antifungal activity 4472.
Triticum pathogens, clofibrate antifungal activity 3790.
Fusarium equiestl,
infection, seeds, Linum usitatissimum, Sesamum indicum, effects on oils content
2811. Fungistats, dihydrochalcones analogs, Myrica gale 4662.

Furadone,
antibiotic sensitivity testing, Salmonella, isolates 7989. antifungal activity, Pythium ultimum, Phytophthora nicotianae, Phytophthora palmivora 7173. derivatives, synthesis, antibacterial activity 518. Salmonella typhi, Salmonella paratyphi, antibiotic resistance, agar dilution test 2096.

Furazolldone, artibiotic resistance, Salmonella gallinarum, in vitro, in vivo, chickens 4579. drug resistance, Staphylococcus aureus 481. urbenicillin, infection, seeds, Linum usitatissimum, Sesamum indicum, effects on oils content B11 monoliformin production, characterization, South Africa 5110. soft rot, post-harvest decay, papaya 2874.

Fusarium exysporum f.sp. apli, infection, Apium graveolens seeds, effects on, germination 3731.

Fusarium exysporum f.sp. apli, infection, Apium graveolens seeds, effects on, germination 3731.

Fusarium fusariodes, monoliformin production, characterization, South Africa 5110.

Fusarium Fusarium oxysporum f.sp. radfus-lycopersicd, crown rot, biological control, antagonism, fungi, Lycopersicon esculentum 1127.

Fusarium graminearum, biosynthesis, vomitoxin, zearalenone, antifungal activity, Penicillium digitatum, Mucor ramannianus, Saccharomyces bayanus 3561.

biosynthesis, zearalenone, grain storage, preservatives effects on 3543. microflora, grain 4466.

root rot, nitrogen sources, effects on, Triticum aestivum 1064. seedling blight antagonism Bipolaris sorokiniana root rot, Hordeum vulgare 6802. vomitoxin biosynthesis, temperature effects on 4381.

Fusarium heterosporum, scab pathogenicity, Festuca arundinacea 9413. trichothecenes, isolation, characterization 1016.

Fusarium alteritium, infection timing, flowering, Ananas comosus 9464.

Fusarium moniforme var.subglutinans, fruit rot, infection timing, flowering, Ananas comosus 9464.

Fusarium moniforme, Aspergillus flavus, mycotoxins, contamination, rice, India 3544. comparison, carbenicillin, bactericidal activity, Pseudomonas, Providencia 5447. Furpyrinol, antibacterial activity, bacteria, fish diseases 2204. Fusaric acid, biosynthesis, Fusarium 843. biosynthesis, Fusarium, role wilt, Cucumis sativus 9485. Fusarin C, Fusarium moniliforme, biosynthesis, mutagenesis, bacteria 3548. Fusariocin C,
Fusarium moniliforme, structure 4275. Fusarium, alkaloids biosynthesis 5840 alkaloids biosynthesis 5840.

animals food contamination, isolation, identification, toxicity testing 9335.

contamination, barley, malt, methodology 1118.

corn infection, storage effects, longerety 6848.

corn infection, storage effects, longerety 6848.

corn model of the contamination of the contami Hart vor, microon umnig, Howering, Ananas comosus 9464.

Fusarium moniflorme,
Aspergillus flavus, mycotoxins, contamination, rice, India 3544.

asymptomatic infection, seeds, incidence, genetic analysis, hybrids, Zea mays 1069. tusaric acito nosymnensis 843.
Gosspilum hirsutum wilt, virulence 5998.
hemicellulase, isolation, purification 1738.
HT-2 toxin, isolation zea mays, thin-layer chromatography 5124.
incidence, Triticum seeds, New Zealand 235.
incidence, Triticum seeds, New Zealand 235. cellulose biodegradation 9289.
disease control, sed treatments, Sorghum bicolor, benomyl+captan 9626.
fruit rot, Coccinia cordifolia 3710.
fusarin C, biosynthesis, characterization, mutagenesis, becteria 3548.
fusariocin C Structure 4275. infection incidence, roots, pruning, Pinus, Picea 9640.
injection, Glycine max 225.
isolation, identification, seeds, Lablab niger, Vigna sesquipedalis. isolation, identification, seeds, Lablab niger, Vigna sesquipedalis, pathogenicity 6880.

isolation, identification, Triticum, methodology 1658.

media (culture), Dianthus caryophyllus, leaves 9979.

microflora, root rot, Medicago sativa 4441.

mycotoxins, role dieback, Pinus 9333.

mycotoxins, role dieback, Pinus 9333.

mycotoxins, toxicity, detection 183.

oliseed crops 3749,

pathogenicity, Phaseolus vulgaris, association kievitone hydratase biosynthesis 3393. fusariocim C structure 42/15.
grain infection, and zones, tropical environment, reviews 6799.
infection, Asparagus officinalis, benomyl, antifungal activity 7006.
infection, seedlings, Glycine max, emergence, fumigation, effects on 1991.
infection, Zea mays, 4422.
infection, Zea mays, identification, ribosomes, immunochemistry 3643.
infection, Zea mays, ribosomal proteins, detection, characterization 1063.
infection, Zea mays, ribosomal proteins, detection, characterization 1063. infection, Zea mays, ribosomal proteins, detection, characterization 1063.
infection, Zea mays seeds 242.
interspecific interactions, Zea mays, Ostrinia nubilalis 6734.
interspecific interactions, Zea mays, Ostrinia nubilalis 6734.
rot association Ophiomyia simplex infestation, Asparagus officinalis 6010.
rot, new records, Capsicum annuum, Nigeria 6887.
soft rot, prophylaxis, fungicides, tubers, Dioscorea 1992.
Fusarium moniliforme var.subglutinana,
fertilizer applications, effects on, canker, development, Pinus 9653.
monoliformin production, characterization, South Africa 5110. polygalacturanase, characterization, isoelectric focusing, use, identification 2551 post-harvest decay, betel, India 4468 post-harvest decay, betel, India 4468, post-harvest decay, disease control, Cucumis melo 6952, post-harvest decay, disease control, Cucumis melo 6952, post-harvest decay, soybeans, tropical environment 3758, propionic acid preservation, antifungal activity, corn 4359, +Pseudomonas, synergism, soil isolates, biodegradation, benzylpenicillin 952, regulation fusario acid biosynthesis, role wild, Cucumis sativus 9485, thizosphere, Penicillium oxalicum isolation, seed treatments 8591, rhizosphere, Pinus 7017. fertilizer applications, effects on, canker, development, Pinus 9653.
monoliformin production, characterization, South Africa 5110.
pathogenicity, Ananas comosus 289,
pitch canker, epidemiology, seasonal variations, Pinus teeda 9642.

Fusarium nivale,
footrot, Triticum, control, benomyl soil applications 1232.
microflora, grain 4466.

Fusarium oxygaporum f.sp. niveum,
wilt, disease resistance, Citrullus lanatus 6889.

Fusarium oxysporium f.sp. chrysanthemi,
infection, Chrysanthemum morifolium 320.
Fusarium oxysporium, Sp. chrysanthemi,
infection, Chrysanthemum morifolium 320.
Fusarium oxysporium, Amblyosporium spongiosum antibiotic 8006-I antifungal activity, benomyl, ± mancozeb, Allium cepa basal rot 4500.
antifungal activity, benomyl, ± mancozeb, Allium cepa basal rot 4500.
antifungal activity, medicinal plants leaves plant extracts 4635.
biological control, Streptomyces obchraceiscleroticus 6027.
cellulose biodegradation 9289.
Cicer arietium wilt, identification, India 6747.
colonies precursors, media (culture), association Nonanoic acid 9993.
colonization, Trifolium repens seedlings rous 4526.
cyclobexylamine, B-phenylethylamine toxicity 5455.
damping-off, Pinus sylvestris susceptibility, relationship, seeds, color, fatty acid composition 5310.
dry rot, Solanum tuberosum, tubers 6893. ffilzosphere, Pinus 7017.

rots pathogens, dry soil Oryza sativa, Philippines 4421.

rot, new records, Capsicum annuum, Nigeria 6887.

seed-borne fungi, germination, Glycine max, seeds, purple stain, Cercospora kikuchii, effects on 6759. soft rot, prevention, treatment, pentachlorophenol, wood, Pseudotsuga menziesii 2921 2921.

2921.

soli microorganisms, fungicides effects on population dynamics 3880.

spore germination, Azotobacter effects on 9806.

T-2 toxin, rayme-linked immunosorbent assay 3589.

T-2 toxin, F-2 toxin, in, effects on glucocorticoids, intestinal microflora, rats, pigs 8524.

T-2 toxin, feeds contamination, toxicity, pigs 5108.

Wilt, antagonism, thizosphere microorganisms, Lycopersicon esculentum, Citrullus lanatus 9492.

wilt, Cucumis melo, Meloidogyne javanica effects on 7732.

wilt, susceptibility, relationship, soil microorganisms, fungi, community

Fusarium oxysporum, (continued) Glycine max wilt, isolation 6751. Fusarium poae, microflora, grain 4466. Fusarium redolens, growth, roots extracts, Abelmoschus esculentis, Lageneria vulgaris, effects on 5336. 533-0.
infection, Asparagus officinalis, benomyl, antifungal activity 7006.
infection, prophylaxis, Zea mays seed treatments, fungicides 8702.
infection, seedlings, Glycien max, emergence, furnigation, effects on 1991.
infection, seeds, Linum usitatissimum, Sesamum indicum, effects on oils content infection, Solanum tuberosum, pathology 3714 Fusarium roseum, dry not, Solanum tuberosum, tubers 6893. dry not, Solanum tuberosum, tubers 6893. post-harvest decay, muskmelons, disease control, fungicides+bot water, immersion infection, seeds, Linum usitatissimum, Sesamum indicum, effects on oils conte 2811.
infection, Trifolium incarnatum, will 9373, infection, Vicia faba, association rhizosphere microorganisms, antifungal activity, trichlorphon 9738. Lycopersicon esculentum, crown rot, root rot, disease control 6957. monoliformin production, characterization, South Africa 5110. pectih biodegradation 9264. Pinus taeda seedlings root rot, Fusarium oxysporum, control, soil amendment, fungicides, funigants 7043. Pisum sativum, wift, root rot, soil characteristics effects on 5157. plant diseases, trees, shrubs, USA, New York 6877. post-harvest decay, onions, control 1114. root rot, Fragaria 6894. root rot, seedlings, Pseudostuga menziesii 7040. root rot, Vicia faba, Sudan 223. rot association Ophiomyia simplex infestation, Asparagus officinalis 6010. rost, association, with Melampsora lini, disease resistance heritability. Linum usitatissimum 4459. soft rot, post-harvest decay, papaya 2874. survival, soil amendments, Difolatan, factors affecting 1234, surivial, soil amendments, Difolatan, factors affecting 1234. wilt, disease resistance, calosco formation, Lycopersicon esculentum 5232. wilt, flysus kesiya 5311. 2811. 26/2. Solanum tuberosum dry rot, screening, disease resistance 5264. vomitoxin biosynthesis, temperature effects on 4381. Zea mays stalk rot, factors affecting disease resistance 6807. Fusarium sambucimum, root rot, Fragaria 6894. Fusarium semi Fusarium semitectum, cellulose biodegradation 9289. infection, seeds, Gossypium hirsutum 7740. monoliformin production, characterization South Africa 5110. Fusarium solani, antitingal activity, amphotericin B 2275. antifungal activity, liquid nitrogen 4639. biosynthesis, 8-O-methyl-javanicin, inhibition, growth, seedlings, Oryza sativa, Lactuca sativa 2624. cellulose biodegradation 9289. citrus isolates, toxins biosynthesis 2752. citrus isolates, toxins biosynthesis 2752. decay, Daucus carota 2819. dry rot, Solanum tuberosum, tubers 6893.
fluoroacetate, metabolism 1764.
infection, Phaseolus mungo, Phaseolus aureus, Cicer arietinum, effects on protein interction, Phaseous mungo, Phaseous aureus, Licer arietnum, effects on pre composition, Phaseolus vulgaris roots, characterization, seasonal variations, effects on, Lebanon 222. nutrient sources, suffur air pollution deposition leaves, Thiobacillus thioparus wilt, Pinus kesiya 5311 wilt, root rot, chemical control, temperature effects on infection. Pisum sativum 5146 wilt, specificity, Trifolium incarnatum 7636. wilt, specificity, Trifolium incarnatum 7636.

Fusarium oxysporum f.sp. apil,
effects on, seeds germination, Apium graveolens, in vitro 3719.

Fusarium oxysporum f.sp. hatatas,
wilt, disease resistance, Ipomoea batatas germplasm 6986.

glutumine 3339. symbiosis, Plantago ovata, effects on growth, seeds production 7800.

Glomas macrocarpus,
effects on, Sorghum bicolor, Eupstorium odoratum, growth, water regimes 3836.

Eupatorium odoratum, soil aeration effects on growth, minerals uptake 3839.
mycorrhizas, Cirus, ecological distribution 3855.
mycorrhizas, Crocus sativus, Iran 413.
mycorrhizas, Crocus sativus, Iran 413.
mycorrhizas, deserts plants, USA, California 215.
seasonal variations, population dynamics, Zea mays 7058.
symbiosis, Plantago ovata, effects on growth, seeds production 7800.
Glomus macrocarpus var, macrocarpus,
spores, symbiosis, Enterobacter, Pseudomonas, Streptococcus 2944.
Glomus macrocarpus repressors, Saccharomyces cerevisiae maltose metabolism 934. D-Glucosamine, Streptomyces griseus, interaction, streptomycin biosynthesis, peptidoglycans biosynthesis 7233. biosynthesis 7233.

Glucose,
addition, Saccharomyces cerevisiae, metabolic response, nutrient status 930.
Aspergillus niger, biomass, formation, fermenters 919.
association 2,4-dichlorophenoyacetate biodegradation 9286.
binding, exo-1,4-a-D-glucosidase, fluorometry, Rhizopus niveus 5763.
biosynthesis, B-D-glucosidase use, Trichoderma mycelia 9188.
broth, Bacillus cereus, Clostridium perfringens, phospholipase activity 2685.
digestion (anaerobic), phase variations effects on 8236.
effects on broxinase conformation, fluorescence, yeasts 5737.
effects on soil properties, soil microorganisms biomass, enzymatic activity 6669, fermentation, bacteria, detection, association electrical impedence, automated methods 9099. spores, symbiosis, Linethouseurs, 1 Glomus microcarpus, development, plant protection chemicals, effects on 1233. development, plant protection chemicals, effects on 1233. moculation, effects on Malus domestica, Zea mays, growth 2032. mycorthizas, ceological distribution 3835. mycorthizas, symbiosis, Rubus roots 6072. Chomus amponaporus, mycormizas, symotosis, Kuous toosa var.

Glomus monosporus,
infectivity, growth, Medicago sativa 3852.
mycormizas, citrus, ecological distribution 3835.
mycormizas, survival, viability, relationship, roots death 2939.
spore germination, herbicides, fungicides, effects on 3879.
Clamus messeae. incorporation, association, antibiotic A23187 biosynthesis, Streptomyces chartreusis 8063. isomerization, immobilized enzymes, β-D-galactosidase, kinetics, inactivation Glomus mosecae, association disease resistance, root rot Phytophthora cinnamomi, role mycorrhizas isomerization, Streptomyces bambergiensis glucosephosphate isomerase, role 5051. limiting factors, continuous culture, effects on Saccharomyces cerevisiae cell division 1576. 4509.
biosynthesis, gibberellin like hormones, characterization 4270. development, plant protection chemicals, effects on 1233. effects on (yigan unguiculata, Zea mays, yield 2947. heavy metals, uptake 2927. infection, Vigan unguiculata seeds, effects on yield 6869. inoculation, effects on, Malus domestica, Zea mays, growth 2032. +mulches, effects on Hordeum vulgare growth 1157. mycorrhizas, Allium cepa 415. mycorrhizas, Citrus aurantifolia 3845. mycorrhizas effects on Hordeum vulgare seeds 407. mycorrhizas, effects on Hordeum vulgare seeds 407. mycorrhizas, effects on, Malus, Zea mays, growth 421. mycorrhizas, Medicago sativa, effects on yield 8730. division 1576.

measurement, soy sauce, applications, fermentation 5053, media (culture), Torulopsis candida, association UDP-galactose biosynthesis 4905, metabolism, bacteria, acid production, anaerobic conditions, N.M.R. 2518. metabolism, Saccharomyces cerevisiae, sorbic acid effects on 51. Microsporum gysseum biodegradation, assimilation 5903, oxidation, detection, Pseudomonas fluorescens, association, beef spoilage 7554, pH effects on acid production, activated sludge, digestion (amaerobic), growth rate 6358. rate b.338.

rate b.338.

respiration, tritiation, heterotrophic microorganizms, assays 4800.

Saccharomyces cerevisiae, fermentation, ethanol production 6648.

Streptooccost bovis, continuous culture, pigments, production 8426.

temperature effects on acid production, activated sludge, digestion (anaerobic), microorganisms, growth 6359.

use, ethanol production 6653.

Glucose dehydrogenase, purification, characterization, Gluconobacter suboxydans 2566.

Glucose dehymerase. mycormizas, citycine max, effects on yield 8730.

mycormizas, Medicago sativa, effects on growth, residual effects 8733.
mycormizas, Trifolium repens, factors affecting phosphorus translocation 402.

± Scutellonema cavenessi, interaction, nitrogen fixation, Glycine max 8750.

± soil fumigation, ± phosphorus soil amendment, effects on Malus domestica 6079.

± symbiosis, Cajanus cajan, Phaseolus mungo, Phaseolus aureus, Luffa acutangula,
Allium cepa, Zea mays, Sorghum vulgare, Pennisetum typhoideum 9670.

± symbiosis, Plantago ovata, effects on growth, seeds production 7800. puntication, characterization, Gluconobacter suboxydans 2566. Glucose isomerase, biosynthesis, continuous culture, Arthrobacter, Mycobacterium 27 deactivation, substrates diffusion, pellets, immobilized cells 8386. Glucose oxidase, Glomus tenuis,

Aspergillus niger, benzoquinone production, Aspergillus niger 3397.

mycorrhizas, effects on phosphorus uptake, growth, Trifolium, secale 401.

```
Glucose oxidase, (continued)
Aspergillus niger, purification 6582.
immobilized enzymes, Aspergillus niger, nylon membranes 5807.
Penicillium vitale, immobilization methodology, use, aminoethyl cellulose, immobilized enzymes characterization 888.
Glucose-1-phosphate adenylyltransferase,
cyclobexanedione, phenylglyoxal allosteric inactivation, role arginine residues,
Escherichia coli 5798.
Rhodospirillum fulvum, Rhodospirillum molis Rhodospirillum tenue,
purification, characterization 20.
trinitrobezzenesulfonic acid chemical modification allosteric activators sites,
effects on activity, Escherichia coli 5739.
Glucose-1-phosphate dehylcherichia coli 6739.
Glucose-1-phosphate dehylcherichia coli 6739.
Glucose-phosphate dehylcherichia coli 6739.
Glucose-phosphate dehylcherichia coli 6739.
Glucose-phosphate dehylcherichia coli 6739.
Glucose-phosphate dehylcherichia coli 7730.
Saccharomyces cerevisiae deficient mutant, association, hexokinase biosynthesis
7410.
Streptomyces bambergiensis, role, glucose isomerization 5051.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                             γ-L-Glutaminyl-3,4-benzoquinone, (continued)
Agaricus bisporus, antiviral activity, tobacco ringspot virus, tobacco mosaic
                                                                                                                                                                                                                                                                                                                                                                                                                                                                         virus 8852.

Ghitamyl phosphate reductase, proline biosynthesis, Escherichia coli 4.

y-Glutamyl-c-lysiae, purification, Lentinus edodes 9149.

y-Glutamyl-c-oraithine, purification, Lentinus edodes 9149.

y-Glutamyl-to-oraithine, purification, Lentinus edodes 9149.

y-Glutamyl-thistidine, purification, Lentinus edodes 9149.

c-Glutamyl-transferase, Enterobacteriaceae, detection, assays, Shigella sonnei 878.

Salmonella dublin, Salmonella enteritidis, detection, assays, Shigella sonnei 878.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     virus 8882
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Shigella sonnei, detection, 878.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Shigella sonnei, detection, 878.

Glutaraidehyde,
antibacterial activity, Spiroplasma citri, Spiroplasma 6171.
antifungal activity, dermatophyte fungi, yeasts 5271.
inactivation acid phosphatase, β-D-fructofuranosidase, kinetics,
Saccharomyces rouxii 7469.
inactivation, Salmonella abortus-equi, vaccines, vaccination, rabbits,
guinea-pigs 3139,
sporicides, disinfection, medical equipment 4788.

Glutaredoxii, binding ribonucleoside-diphosphate reductase, glutathione derivatives
 Saccharomyces cerevisiae deficient mutant, association, hexokinase biosynthesis 7410.

Streptomyces bambergiensis, role, glucose isomerization 5051.

c-Glucoslasee, isoenzymes, Dictyostelium discoideum, isolation, characterization 858.

c19-Glucoslasee, isoenzymes, Dictyostelium discoideum, isolation, characterization 858.

carp-Glucoslasee, affinity chromatography, isolation, yeasts 1689.

assays, yeasts 5731.

biosynthesis, screening, fungi 8381.

soy sauce fermentation role 4291.

β-Glucoslasee, Cellulomonas uda, biosynthesis, localization, regulation 6563.

β-D-Glucoslasee, Cellulomonas uda, biosynthesis, isocation, regulation 6563.

β-D-Glucoslasee, Cellulomonas uda, biosynthesis, isocatory factorial for the property of the strength of the property of the property of the strength of the property of the strength of the property of the strength of
                                                                                                                                                                                                                                                                                                                                                                                                                                                                           binding ribonucleoside-diphosphate reductase, glutathione derivatives inhibition, 
Escherichia coli 8327.

L-Glutamate.
   L-Glutamate,
Penicillium chrysogenum, effects on penicillin production 7232.

Glutamate decarboxylase,
isolation, Characterization, Listeria monocytogenes 869.
L-serine O-sulfate inactivation, N.M.R., Escherichia coli 8380.

Glutamate dehydrogenase, r. riticici, role, infectivity, Triticum aestivum 3659.
Geumannomyces graminis var. tritici, role, infectivity, Triticum aestivum 3659.
regulation, Coprinus cinereus 4264.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                         rpnenot, +zmc, insulin aduntives, antoacterial activity, supprisocecus epidermidis, Staphylococcus aureus, Escherichia coil 3018 transformation, dhydroxyacetone, immobilized cells, Gluconobacter oxydans 852. Glycerol dehydrogenase, role, glycerol biodegradation, Schizosaccharomyces pombe 954. Glycerol kinasee,
     Citutamic acid,
biosynthesis, Brevibacterium divaricatum, batch culture, computer applications
839.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      biosynthesis, Streptomyces canus, characterization, media (culture), patents 5824.
Brevibacterium divaricatum, biosynthesis, ethanol, association addition, mathematical models 7.
Brevibacterium flavum, production, immobilization 918.
Corynebacterium glutamicum, biosynthesis, isolation, media (enrichment) 842.
Corynebacterium glutamicum, biosynthesis, molasses utilization 9158.
excretion, Citrobacter intermedius, antibacterial activity, chloramphenicol 1412.
production, Brevibacterium, Corynebacterium, mutants, patents 5717.
Aspergillus nidulans, culture systems 3371.
Glutamine,
production, Glutamine,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                        5824.

Glyceroi-3-phosphate dehydrogenase,
purification, characterization, Escherichia coli 4265.
purification, characterization, Escherichia coli 4925.
Vibrio alginolyticus, purification, characterization 1739.
Glyceroi-3-phosphate dehydrogenase (NAD'),
purification, characterization, Saccharomyces cerevisiae 5728.
Glycerolphosphate acyltransferase,
purification, characterization, reconstitution, cytoplasmic membranes,
Escherichia coli 3393.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Glycine,
Phakopsora pachyrhizi, leaf rust, disease resistance screening 6979.
     Glutamine, productian, Gluconobacter suboxydans, glutamine synthetase, +Saccharamyces cerevisiae fermentation 3339.

L-Glutamine,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      population studies, disease resistance, leaf rust 3622 +zinc, dentrifices, patents 8148.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                        +zinc, dentifices, patents $148.
Glyciae canescens,
Phakospora pachytizi, rust, teliospores 1866.
population studies, disease resistance, leaf rust 3622.
Glycine clandestina,
population studies, disease resistance, leaf rust 3622.
Glycine javanica,
Phakospora pachythizi, rust, teliospores 1866.
               nitrogen sources, media (culture), Pseudomonas tomato, cultural characteristics 7337.
 Glutamine synthetase,
Almus glutinosa nodules, localization, characterization 7826.
ATP hydrolysis, kinetics, Escherichia coli 4204.
Bacillus licheniformis, activity, characterization, nitrogen sources, effects on
                                                                                                                                                                                                                                                                                                                                                                                                                                                                      Phakospora pachythizi, rust, teliospores 1866.
Glycline max,
acetylene reduction, nitrogenase, Rhizobium 3867.
association, triffuralin, root rot enhancement, Phytophthora megasperma 6760.
bean pod mottle virus infection, protoplasts, characterization 3638.
benomyl, effects on, fungi infection 9611.
blight, Pseudomonas glycinea, seasonal variations, growth 5144.
brown spot, Septona glycinea, dew effects on 5155.
brown spot, Septona glycines, effects on vield 6752.
brown spot, Septona row spacing, height, effects on 1868.
carbon dioxide, uptake, nodules, Rhizobium japonicum, association, amino acids biosynthesis 4557.
cell culium en eycenllin biosynthesis, induction, Pseudomonas syringae.
                          889.
              construction mutants, Salmonella typhimurium 3405.
Gluconobacter suboxydans, +Saccharamyces cerevisiae fermentation, productian, gluamine 3339.
isolation, Escherichia coli 2568.
Nicottana tabecum, inactivation, Pseudomonas tabeci, toxins, wildfire, chlorosis.
                        leaves 1845
            icaves 1843.
Nitrosomonas europaea, purification, characterization, activity 2577.
purification, characterization, Azotobacter vinelandii 5747.
purification, characterization, Bacillus brevis 5742.
purification, characterization, Micrococcus glutamicus 2563.
purification, Escherichia coli 6583.
reactivation, escherichia coli 7415.
subunitis interaction, econographitus Escherichia coli 17415.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  biosynthesis 4357. cell culture, glycoollin biosynthesis, induction, Pseudomonas syringae, Phytophthora megasperma 9363. charcaol rot disease resistance, phytoalexins production, relationship, Rhizobium japonicum interaction Macrophomina phaseolina 2765. crop fields, pest control, pathogens, baculovirus, Pseudophusia includens 5843. crop rotation, Sorghum bicolor, effects on, nitrogen fixation, yield 9730.
issunits interaction, cooperativity, Escherichia coli 4201. 

y-L-Glutaminyt-3,4-benzoquinone, 

Agaricus bisporus, antiviral activity, tobacco ringspot virus, tobacco mosaic 

virus, infection, Vigna unguiculata 7626.
```

Glycine max, (continued)

Glycine max, (continued)
Rhizobium, quality, y radiation, steam, sterilization, effects on 1219.
Rhizobium, symbiosis, soil, acidity, tolerance, factors affecting 1200.
root rot, Phytophthora megasperma f.sp.glycinea, glyccollin, relationship,
metalaxyl, treatment 9613.
roots exudets effects on, phytophthora megasperma f.sp.glycinea, cospores
germination 7640.

1-phenyl-4-amino-5-chloro-piridazone-6, 3-cyclohexyl-5,6-trimethyleneuracil, effects on, Azotobacter chrocococcum 7854.

Pythlonlane fungi, leaves plant extracts Hordeum vuleare effects on 4496. 5690. effects on, Azolosacter Grozooccum //634.

hylloplane fungi, leaves plant extracts Hordeum vulgare effects on 4496.

Phytophthora cactorum, sterols effects on 5450.

Phytophthora cunnamomi, temperature effects on, Persea americana 2801.

Pinus ponderosa, mycorrhizas, Pisolithus tunctorius, effects on, USA, South Dakota 420. 404 Pinus radiata, Dothistroma pini infection effects on 5305. Pisum sativum, association, selection, photosynthesis carbon dioxide gas exchange 1931/0. Pisum sativum, roots, water stress, powdery mildew, Erysiphe pisi 3734. Plantago ovata, mycorrhizas symbiosis effects on 7800. Plants, Solanum tuberosum, rhizosphere microorganisms, bacteria, powder, effects on 7312. Plantago ovata, mycornhizas symbiosis effects on 7800.

Plantago solamum tuberosum, rhizosphere microorganisms, bacteria, powder, effects on 7312.

Pleurotus ostreatus mycelia, culture effects on 5683.

Populus tremuloides, shoot blight, leaf blight, Venturia macularis 7024.

Porodisculus pendiuis, polysaccharides biosynthesis, nutrient requirements 2612.

promoters, effects on Lactobacillus, animal isolates 2126.

Propionibacterium anens, media (culture), lecithin effects on 9964.

Prunus persica, Juglans regia, son's olarization effects on 5923.

Pseudomonas aeruginosa, drinking water, relationship, carbon sources 9902.

Pseudomonas pustida, alkane 1-monocoygenae, activity 5785.

Psophocarpus tirtagonolobus, water regimes effects on 4547.

psophocarpus tirtagonolobus, water regimes effects on 6048.

Quercus velutuna, seedlings, Pisolithus innotorius, reforestation 2904.

reproduction, Phytophthora parasitica, Verticillium albo-atrum, Colletotrichum musae, antiturgal activity, phenols 3092.

Rhizobium pisonicum, phosphate 780.

Rhizobium pisonicum, anaerobic conditions 1221.

Rhizobium pisonicum, maerobic conditions 1221.

Rhizobium inponicum, anaerobic conditions 1221.

Rhizobium inponicum, anaerobic conditions 1221.

Rhizobium inponicum, mosphate 780.

Rhizobium inponicum, disposphate 780.

Rhizobium phosphate, effects on 7975.

hizosphere microorganisms, roots extracts, effects on 1201.

Rhizobium, ophosphate, effects on 7975.

hizosphere microorganisms, roots extracts, effects on, Abelmoschus esculentis, Lageneria vulgaris 5336.

roots, Boutelous gracilis, association, Glomus fasciculatus symbiosis 9673.

Saccharomyces cerevisiae, effects on 7975.

hizosphere microorganisms, roots extracts, effects on, Abelmoschus esculentis, Lageneria ordanismos effects on 7188.

Saccharomyces cerevisiae, effects on 7975.

hizosphere microorg meat 179

Scieroum Tollis, glucans production, softium chloride tolerance 6620. seasonal variations, Pseudomonas glycmea, blight, Glycine max 5144. seedlings, Lactuca sativa, Oryza sativa, inhibition, 8-O-methyl-javanicin, biosynthesis, Fusarium solani 2624. seeds, germination, inhibition, Lycopersicon esculentum, Pseudomonas tomato, damping-off 1940. damping-off 1940. Shigella boydis, Neisseria meningitudis, Staphylococcus aureus, Mueller-Hinton agar, y radiation sterilization 3262. soil microorganisms, bacteria, cadmium, pollution effects 426. soil microorganisms, nurrogen cycle, time effects on 3874. soil microorganisms, phenolic acids effects on, biodegradation, biomass, soil aurocodment 4534. services effects on, clay minerals 67(70). soil microorganiams, proteins effects on, clay minerals 6070.

Solanum tuberosum, Raphanus sativus, rhizosphere bacteria effects on 1150.

Sorghum bicolor, Azosprulim brasilense, nitrogen fixation, effects on 2972.

Sorghum bicolor, Eupatonium odoratum, water regimes, Glomus macrocarpus, effects on 3336. on 3336.
Spirpojasma citri, relationship, morphology, cultural characteristics effects on, electron microscopy 769.
Staphylococcus aureus, cheese 141.
Staphylococcus aureus, cheese whey 109.
stimulation, Allium sativum extracts, bacteria, fungi 1349.
stimulation, Beta vulgaris, rhizoplane microorganisms, Pseudomonas, characterization 5322.
Streptococcus, blood agar, media (enrichment) 1615.
Streptococcus cremoris, nitrogen sources, milk 990.
Sureptococcus faccalis subsp.zymogenes, catalase, bematin, effects on, glycerol media (culture) 1572. Sureptococcus Jaccalis subsp.zymogenes, catalase, hematin, effects on, glycerol media (culture) 1572. Streptococcus thermophilus, Lactobacillus bulgaricus, milk, pasteurization, cold storage, effects on 3468. Streptococcus mittor, media (culture), isolation, blood culture 3280. Streptococcus mutans, dental plaque, rylifol+sorbitol, effects on 522. Streptococcus mutans, selenium fluoride, sodium fluoride, selenium chloride, effects on 3917. SV40 transformed cells, Streptomyces, biosynthesis, diketopiperazines effects on temperature, effects on biosynthesis, α -amylase, exo-1,4- α -D-glucosidase 8385. 5393.
Tenebro molitor, mycotoxins, interaction, protein composition, effects on, feeding trials 1017.
Tenebro molitor, impi, fungi, industrial effluents, oilseed crops 2310.
Thiobacillus acidophilus, pyruvate, effects on 794.
Torula, mineral oil media, use, animals feeds, chickens 6527.
Trichoderma aureoviride, liquid culture, characterization, use, autoradiography 5090.

Trichoderma harzianum, propyzamide, fungicides, effects on 3878.
Trifolium pratense+nycorrhizas, phosphate deficiency soil 3834.
Trifolium repens, infection, affalfa mosaic virus, clover yellow mosaic virus, peanut stunt virus, effects on 7623.
Trifolium repens, Louis pedimuculatus, +Rhizobium, +nitrate, phosphorus effects on Trifolium subterraneum, mycorrhizas effects on, relationship inoculum 403. Trifolium subterraneum, mycorrhizas effects on, relationship, soil sterilization Trifolium subterraneum, mycorrhizas, phosphorus uptake, effects on 418.
Trifolium subterraneum, nitrogen fixation, nodulation, mycorrhizas, phosphorus Tribcum aestivum, inhibition, Aspergillus ustus dehydropergillin 904.
Tribcum aestivum, Panieum miliaceum, Sorghum bicolor, Azospirillum brasilense, nitricum aestivum, Panieum miliaceum, Sorghum bicolor, Azospirillum brasilense, nitrogen fixation, effects on 2052.

Verticillium dahliae pathogenesis effects on, Gossypium hirsutum 9472.

Vibrio natriegens, abate, effects on 5379.

Vibrio parahaemolyticus, Escherichia coli, Staphylococcus aureus, fishery products, smoking, Mugli cephalus 8478.

Vigna unguiculata, nodulation, nitrate effects on 5355.

Williopsis, Zygowilliopsis, ethanol modia (culture) 6122.

Xanthomonas campestris, fermentation, xanthan production 4940.

yeasts, unmobilized cells, x-carrageenan gels, tricalcium phosphate effects on 9994. yeasts, Pseudomonas aeruginosa, n-hexadecane, surfactants effects on 4576. Zea mays, Azospirillum brasilense, nitrogen fixation, inoculation, effects on 2070 Zea mays seedlings, Ustilago maydis infection effects on 3644. Zymomonas mobilis, continuous culture 6485. Zymomonas mobilis, ethanol biosynthesis, bioreactors 7510. Zymomonas mobilis, continuous cutture 0485.

Zymomonas mobilis, chanol biosynthesis, bioreactors 7510.

Growth conditions,
activated sludge, westewater treatment, models, oxidation 9892.

Aspergillus terreus var africanus, antibiotics, biosynthesis 9842.

biomass, fermenters, optimization, mathematical models 9916.

brain heart infusion, media (culture), Neisseria gonorrhoeae, methodology 9947.

Campylobacter jeuni, survival, beef 9304.

Clostridium botulinum, toxins, production, growth 7606.

continuous culture, etimperature, Candida utilis 9117.

effects on, Septoria nodorum infection Triticum aestivum 3649.

fermenters, continuous culture, optimization 9248.

fungi, heat resistance, association mushrooms composts 5414.

Fusarum oxysporum (5p. jetir, host range, citrus 9458.

herpes simplex virus I cell culture, multiplicity of infection 9929.

Methylococcus capsulatus, dimethyl ether carbon sources, effects on methane metabolism 4577.

Mycobacterium avium in vivo, Mycobacterium avium in vitro, heat inactivation. Mycobacterium avium in vivo, Mycobacterium avium in vitro, heat inactivation, Peptostreptococcus anaerobius, effects on antibacterial activity, hydrogen peroxide 5437. preparation. Streptomyces rimosus, protoplasts, methodology 9966. production, β-D-galactosidase, Alternaria alternata, whey, factors affecting preparation, Stre Streptococcus faecalis cell culture, effects on pyrolysis gas chromatography 8225. Growth curves,
Escherichia coli, Pseudomonas aeruginosa, antibacterial activity, ceftazidime

Salmonella enteriidis, Pseudomonas aeruginosa, Escherichia coli, biodegradation, carbon sources, industrial effluents 7529.

Salmonella, meat, isolation, methodology 7331.

Hericets on 5315.

Hericuta subbobata, ainfection, Cassava latent virus, host range, Kenya 2859.

2,2',4,4',5,5' Hexabydroxybiphenyl,
Gomphidius maculatus, Gomphidius glutinosus, isolation 43.

Hexachlorocyclohexane,
effects on Azotobacter, Azospirillum, nitrogenase activity, Oryza sativa
thizosphere, paddy fields 1225. mizosphere, paady heids 1/25.

Hrandecane,
biodegradation, Acinetobacter caleoaceticus, pili, role, adherence 9756.
biodegradation, Flavobacterium, Corynebacterium 7872.
Candida ipolytica, metabolism, emembrane structure 9750.
Candida tropicalis, metabolism, chemostats 7869.
Candida tropicalis, metabolism, cynochrome C oxidase activity, chemostats 7105.

—Heradecane and viral agents, isonation, purification, identification, jumperus commun 2175. antiviral agents, screening, methodology 3943. antiviral agents, 1-[2-hydroxyethoxy)methyl]pyrimidines activity 3944. bts-amidinohydrazones, antiviral activity, structure-activity relationships, n-Hexadecane,
yeasts, Pseudomonas aeruginosa, growth, surfactants effects on 4576.
Hexagonia discopoda,
decay, wood, Santalum 5314.
2,4,5,2',4',5'-Hexahydroxybiphenyl,
biosynthesis, Arinella polycapella metabolites, antimicrobial agents 7194.
Hexametaphosphate,
antibacterial activity, Bacillus subtilis, synergism, compoundBCF 7938.
Hexamethylene diamine,
Bacillus subtilis, biodegradation 84.
biodegradation, Bacillus subtilis, clays minerals effects on 9273.
1,6-Hexanedatamine,
biodegradation, Bacillus subtilis 8466.
Hervokinase, sandviral agents, (1-aydroxyenoxy) membry lyprindines activity y 594-1.

Box amidionlydrazones, antiviral activity, structure-activity relationships, indole 7186.

cell culture, multiplicity of infection, growth conditions 9929.

cell lines infection, antiviral activity, antiviral agents 6206.

DNA incorporation analogs, E-5-(2-bromovinyl)-2-deoxyuridine,
E-5-(2-todovinyl)-2-deoxyuridine, antiviral activity 4633.

DNA polymerase, inhibition, streptiovaricin derivatives 3048.

glycoproteins, antigenic characteristics, purification, immobilization monoclonal antibodies 3218.

growth, association, drug sensitivity testing, cells, fibroblasts, man 4084.

9-(2-bydroxyethoxymethyl)guanine, antiviral activity 4655.

inactivation, 4-nitroquinolin 1-oxide 3038.

infection, leukocytes (mononuclear), lymphoid cell lines, cell surface antigens, methodology 6451.

teratitis, antiviral activity, 2'-fluoro-5-iodo-ara-C 3934.

tymphoid cells culture, antiviral activity, o-interferon2:
9-(2-bydroxyethoxymethyl)guanine 6205.

succleosides analogs, antiviral activity, 9-fl(2-hydroxyethoxymethyl)guanine 5477.

replication, inhibition succinyl-concanavalin A 4653.

repes simplex virus 2,

relaklyation-5-(2'-sulfamolyphenyl)-1,3,4-thiadiazole derivatives, antiviral activity 5475.

pless simplex virus 2,

relaklyation-5-(2'-sulfamolyphenyl)-1,3,4-thiadiazole derivatives, antiviral activity 5475.

2-chydroxyethoxymethyl)guanine, antiviral activity 4655.

nactivation, 4-nitroquinolin 1-oxide 3038.

afection, man, association, cervis carcinoma, immunoassays, characterization 8163.

eteratitis, antiviral activity, 2'-fluoro-5-iodo-ara-C 3934. brookgradation, Baccillus subrilis 8-90.

Heroklinase,
affinity labelling, conformational analysis, yeasts 4913.
biosynthesis, Saccharomyces cerevisiae deficient mutant, glucosephosphate
isomerase, mannosephosphate isomerase 7410.
glucose, glucose-o-phosphate, phosphate effects on conformation, fluorescence,
yeasts 5737. yeasts 733.

soenzymes, purification, Saccharomyces cerevisiae 4934.

Saccharomyces uvarum, activity, association, edanol fermentation 7514.

D-xylose ADP complex, structure, X-ray crystallography, yeasts 8307.

Hexosamine,
biosynthesis, Triticum aestivum, role, disease resistance, stem rust, Puccinia striiformis 3654 +pentoses, fermentation, ethanol, L-butanol, biosynthesis, Saccharomyces cerevisiae, Clostridium acetobutylicum 9236. cerevisiae, Clostridium acetobutylicum 92.96.
Hexyl acetate, yeasts, wine 8433.
Hibiscus esculentus,
tobacco necrosis virus infection 7702.
Hibiscus sabdariffa var.atlissima,
X Hibiscus sabdariffa var.edulis, plant breeding, disease resistance,
Phytophthora parasitica, genetic analysis 3769.
Hibiscus sabdariffa var.edulis,
